TORNADO DOES MUCH DAMAGE IN MISSOURI

ROGERS PROPOSES PRIZE BE GIVEN BANKER MITCHELL

(Special To The News)
NEW YORK, April 1.—This week's Nobel prize goes to Banker Charley Mitchell, for digging up that \$25,000,000 when the boys was just going over the falls. He helped out the small investor, for \$25,000,000 would be no good to a big one. Congress wants everybody to go broke just to prove they are right. See where the British embassy landed 10,000 cases at Baltimore. That's just enough to tide 'em over for the week-end till a shipment worth while shows up. Stams embassy got in two truck loads the other day. That's a lot of nourishment for a couple of twins. I would rather own an embassy than to own a country.

PA NEW OBSERVES

Students of the New Castle schools returned to their classes today after an enjoyable week's vacation. It was enjoyable inasmuch as the weatherman provided excellent weather almost every day last week. Their next holiday will come on Memorial Day, May 30.

While some college students have already returned to their respective schools to resume their studies, others have just arrived home. This is true in the case of Westminster college. Students of that institution were dismissed for a ten-day vacation on Friday of last week.

Most all of the Sunday schools and churches of New Castle observed Easter in a fitting manner. Reports from various schools indicate that fine programs were carried out and that attendance was unusually good for Easter.

Rural mail carriers start today on the annual check of the mail route which they cover. The carriers will record the number of pieces they carry, the classification of each and numerous other things that might help the department serve the patrons better.

The weatherman held off with the showers on Easter day until evening. The morning and afternoon weather conditions were quite nice, the sun shining a part of the time. But early in the evening, or rather late afternoon, a storm developed and rained in generous quantities. The storm continued intermittently during the night and early morning.

Pyle's second bunion derby races got away yesterday from New York toward the western coast. The races will not come through this section.

When I Was 21

E. R. Wolf, office manager of the New Castle Dry-Goods company, was engaged in teaching school in Adams county at a place not far from Gettysburg, Pa., when he was 21. That particular year comes back very distinctly to him. Wolf had just reached his 21st birthday but three days before the election. But even then he was able to hurry through all the ins-and-outs then associated with voting in time to cast his ballot. This was in 1896, the year William Jennings Bryan opposed William McKinley. Wolf spent considerable time teaching at various places before he took up office work in Youngstown, which ultimately brought him here. It was in 1918 that he came to New Castle to assume the position he now occupies. Mr. Wolf is a resident of East Morton street.

Score Injured During Tornado At Poplar Bluff

Farm Buildings And Homes

As Yet

(International News Service)
POPLAR BLUFF, Mo., April 1.—A score of persons, victims of a tornado are in hospitals today as the result of a tornado which struck in this vicinity late yesterday. No deaths were reported today, but it was said that some of the severe or seriously injured are expected to die. Farm buildings and homes in the path of the tornado were demolished. The storm originated in the northern section of Arkansas and extended its path of destruction as far north as Mineral, Mo. Ten houses were wrecked at Mineral and the roof of the Missouri Pacific railroad station was reported to have been blown off. A complete checkup was impossible because of the disrupted telephone communication.

(International News Service)
Terrific winds approaching miniature tornado and cyclone proportions were reported sweeping eastward today with diminished vigor, leaving in their wake havoc and destruction throughout the middlewest.

Houses were unroofed in many sections. Windows were smashed, trees uprooted and telegraph and telephone wires torn asunder.

Four residents of Poyner, Mo., were in a serious condition and property damage estimated at \$500,000 was reported as the result of a tornado.

OLD TROOPERS TO STAGE EXHIBITION

Federal inspection of Company B, 125th Mounted Engineers will take place this evening in the armory on Neshannock avenue at 8 o'clock, following which the local units will be sworn in as Troop F, 103rd Cavalry, in accordance with orders recently issued, designating various units of the Pennsylvania National Guard.

Capt. Raymond Walter, commanding Company B, has received word that the Federal inspection will be made by Capt. R. E. Tallant, U. S. Cavalry, (DOL), George W. Phillips, Captain A. G. D. and Assistant Adjutant General will be the state inspector. They will also be accompanied by Major Samuel B. Wolfe, commander of the 103rd Cavalry, N. G. P., who will make his quarterly inspection at this time.

Company B will be redesignated and presented for Federal recognition as Troop F, 103rd Cavalry at the inspection.

Many former members of old Troop F, which was organized in 1804 as part of the 1st Pennsylvania Cavalry, will be present, and after the inspection is completed, will show the inspecting officers how they used to "do it" back in 1904.

Capt. A. Martin Graham, one of the first members of old Troop F, will take charge of the old timers. He was one of the first members of the old unit and served continuously until 1916.

The public is invited to be present at the inspection this evening. Formation will take place at 8 o'clock sharp in the armory, 360 Neshannock avenue.

Believe H. S. Gibson Will Be Successor To Late M. T. Herrick

(International News Service)
WASHINGTON, April 1.—Hugh S. Gibson, now ambassador to Belgium, will be Myron T. Herrick's successor as ambassador to France, International News Service was reliably informed here today.

Gibson, a career diplomat, sailed for Europe a few days ago after receiving instructions here as America's representative at the forthcoming disarmament discussions at Geneva. He is a native Californian and an intimate friend of President Hoover's, having been assigned to duty with him during much of his food relief work in Europe.

The death of Ambassador Herrick caused universal sorrow in the Capital. Although his early retirement from his ambassadorial post had been expected, due to ill health, the suddenness of his passing came as a shock.

HARRISBURG, April 1.—The gasoline tax bills and the anthracite tax repealer will be the two big outstanding items on the House program when that body begins the last three weeks of the 1929 sessions tonight. Before adjournment this week both of these matters will be in the Senate and they will be started on their way for final action preparatory to being given to the governor for his action. The Senate also will enter the final three weeks of the session with a number of important measures coming up for action. Chief among these is the series of highway bills sponsored by the administration. The blue bills have already been passed by the House and are expected to be reported from committee and passed this week with little or no opposition. The Jones anthracite coal tax re-

Easter Day Is Pleasant One

Rain Holds Off Until Late In
Afternoon—Morning
Weather Fine

THOUSANDS AT CHURCH SERVICES

Sunday proved one of the most agreeable Easter Days that could have been desired, the weather man's threat of impending disagreeable weather failing to materialize until late in the day.

Those who had purchased new Easter finery for the occasion were enabled to show it off in all its glory, the morning and afternoon, being ideal.

Attendance at the various churches, where many fine programs had been arranged for the day, was swelled to unusual proportions as a result, exceeding the expectations of most of the ministers and church officers.

Late in the evening the district was visited by the heaviest thunder storm of the spring, sharp lightning being accompanied by a heavy rain. Few were caught unprepared, however, as plenty of notice was given, the first storm rolling in after an advance of threatening clouds, and low rumbling thunder.

All in all, it was a most agreeable day and milder had little to complain of.

Over Easter Sunday

THOUSANDS ENJOY SPLENDID WEATHER

(International News Service)
MOTORISTS of Pennsylvania either enjoyed an especially lucky Easter Sunday or were especially careful, as a check up by International News Service of accidents over the weekend shows but five fatalities and 35 injuries.

Three of the fatalities occurred in Pittsburgh, one in Canfield and one in Pennsylvania was killed in Wilmington, Del.

Thousands of motor cars filled the highways of the state throughout the day, one of the warmest and sunniest Easter Sundays for some years. Many minor accidents were reported on the open roads, but all of the fatal mishaps occurred in the cities. Hospital reports state that 19 of those injured are in serious conditions.

Pittsburgh: Three persons killed, 16 injured.
Alliquippa: Two persons killed, Wilmington, Del.—Marguerite Molski, Chester, Pa., was killed and four other Pennsylvanians injured, at Niamans-on-the-Delaware, just across the Pennsylvania line.
Harrisburg: Seven injured in series of crashes.
Carlisle: One man killed, four injured when two cars collided.

Active hostilities were brewing in two widely separated sectors—Naco, Sonora, and Jimenez, Chihuahua, today.

While the Naco federal garrison under General Lucas Gonzales momentarily expected renewal of the rebel air attack which started with dawn Easter morning, telegraphic advices from rebel Generalissimo Jose Gonzalo Escobar stated the big southward campaign of the main rebel army was fully underway following an initial major engagement just south of Jimenez. The insurgents claimed an overwhelming victory in this encounter with the Federals.

Considerable damage was done to federal fortifications by the aerial bombs which also partially damaged the International Cafe, famous border line resort.

SPECIAL MUSIC AT ALL SERVICES

Churches of the city were filled to capacity with crowds of worshippers for the impressive Easter services, Sunday morning and evening. Beautiful weather was an additional factor in bringing out the large congregations to hear the story of the resurrection re-told in message and song. The day's program began with a sunrise breakfast and prayer service conducted in many of the churches by the young people's societies. Following this service, visits were made to the sick and shut-ins where hymns were sung. The morning services were featured by an Easter sermon by the pastors. Communion was observed and baptism administered in many churches. The reception of new members was also a feature of the morning. Practically every choir in the city

Ask City Solicitor To Give Opinion On Pension Act Validity

Councilmen Clayton Reeves and W. T. Burns today staged a verbal spar-

ing match over pension money investment when council met today in an ordinance amending the section of the city pension ordinance.

W. V. Tyler has asked the city solicitor, Robert White, to furnish solons with an opinion as to the constitutionality of the state pension law for police and firemen, an ordinance providing for the same and also the legal method of the pension board handling the fund.

Councilman Burns reported to colleagues that the pension fund amounts to \$40,039.25.

"That is a liability?" questioned Reeves.

"Yes," replied Burns.

Before further comment could be made Councilman Tyler asked Solicitor White to furnish council with an

opinion covering the entire pension situation.

Burns said he wished to introduce a pension amending the section three of the city pension ordinance. It was introduced.

Introduces Amendment.
Burns' amendment provided for the constitution of council as a pension board to control its affairs. It also provided for council to manage the fund whereby the money not needed "may" be invested in government or municipal securities.

The ordinance passed some years ago provided that the money "shall" be invested in government securities. The words "may" and "shall" and the proviso that the investment include "municipal" securities evidently caused the fire of Reeves and he re-

Morgan Case To Be Investigated From All Angles

(International News Service)
WASHINGTON, April 1.—Official investigation to determine whether Congressman William M. Morgan (R) of Ohio, had been guilty of tampering with liquor in his baggage when it cleared through customs last week, following a junketing party to Panama, was speeded up today.

Telegraphic orders have been sent to customs authorities in New York directing them to turn over all records and evidence in the case to District Attorney Charles H. Tuttle, who will decide whether to ask for the bone-dry congressman's indictment by the grand jury.

The customs authorities in New York were also directed to "cooperate in every way" with the district attorney's investigation.

These orders were issued in an effort to expedite the case. In the ordinary course of procedure, the customs authorities would make their report to Washington first, and then the papers would have to be mailed back to New York. By taking the short cut considerable time will be saved—and, incidentally, it relieved the embarrassed treasury officials of the necessity of themselves making a decision as to whether the charges against Morgan should be made the basis for indictment.

BEAVER FALLS GIRL IS KILLED

(BULLETIN)
BEAVER FALLS, Pa., April 1.—One girl was killed and several other school children narrowly escaped possible serious injury when a gale struck a school building here during recess, plunging a stone coping of the building into the schoolyard today.

Naomi Mallick, 7, was fatally injured when hit on the head by one of the stones from the coping. Her skull was fractured and she was rushed to Providence hospital where she died.

The gale was traveling at an estimated speed of 50 miles an hour.

To Determine Death Cause

SPRINGFIELD, Mass., April 1.—An inquest was being arranged today in connection with the death of Miss Frances St. John Smith, the Smith College undergraduate whose body was taken from the Connecticut river at Longmeadow 14 months after she vanished from Northampton.

The inquest will be held in district court. Witnesses will be heard. However, the condition of the body made it impossible to discover the exact cause of death. The cause was given in the report of Dr. Frederick D. Jones, medical examiner, who performed the autopsy, as growing sustained under circumstances undetermined. The autopsy was performed late Saturday afternoon.

The citizens of New Castle and vicinity are invited to see this curious fruit. It is not an advertising scheme but just a little display of something in which many people will be interested. Come in tomorrow or later if they are still here.

Disagreement—Pai
Convicted

(International News Service)
ATLANTA, April 1.—Richard Gallogly, erstwhile "darling" of Atlanta's younger set, will spend the remainder of his life behind prison bars for his part in the "thrill" murders of Willard Smith, a drug clerk, and S. H. Meeks, a grocer.

The alleged accomplice of George Harsh, self-styled "master mind" in the "thrill" murders, suddenly pleaded guilty to the two slayings today, and heard Judge John D. Humphreys sentence him to life imprisonment.

Twice Tried

Twice Gallogly has been tried for Smith's murder, and each time a disagreement resulted. On the heels of these two trials, Gallogly's guilty plea came with startling abruptness. It was made while a motion to postpone his third trial set for tomorrow, was before the court.

George Harsh already has been convicted and sentenced to death in the Smith slaying, which occurred as a culmination of a career of crime and bloodshed upon which the prosecution charged the youths embarked for a thrill while attending Oglethorpe University here. Harsh is awaiting a hearing on his motion for a new trial.

Harsh also is under indictment for the slaying of Meeks, killed in another hold-up, but he has never been tried on this charge. Harsh confessed the crime to the police after his capture and implicated his college chum.

New Kind Of Fruit On Display At News

In southern Florida, a fruit grows called Pepaya. During the past winter while Fred L. Rantz of The News was down there, great demonstrations of this fruit took place in Miami. It is touted as a great health food having great medicinal qualities. Mr. Rantz became very much interested in this fruit, which is eaten like a cantaloupe and often weighs ten or twelve pounds. It grows on a tree about like a castor bean plant and has a great number of the fruit on it, some being quite large. A box full of them weighing about fifty pounds has been received at The News office and will be exhibited as long as they do not spoil.

There's gloom and there's woe amongst the kids that I know, and for them clouds are leaden and gray, their week of vacation has sped its course, and they go back to lessons today. Back to spelling and English, and writing and art, back to books that are tough ones to know, and this morning they travelled with lingering gait, and their footsteps were slopping and slow. The loathing is done and now work must commence, become all the idling and play, the Easter vacation is past for the kids, it's just fifty-two today.

Gale Sweeping Here From West

Much Damage Is Reported From Western Pennsylvania District

High winds, believed sweeping eastward from the Midwest where considerable damage was done, tore down high tension wires throughout Western Pennsylvania, killed one man and did heavy damage today.

Michael Larise, 50, of Ellwood City, was killed when a high tension wire torn from a pole by the highwind, struck him, electrocuting him.

At Oil City, a sixty-mile an hour gale swept the region, tearing down twelve of the fourteen high tension transmission cables into the city. Service to the Punxsutawney region also was handicapped, long distance phone calls being rerouted.

Washington Youth Held For Murder, Result Of Fight

"Eternal Triangle" Shooting In Washington, Pa., Is Fatal To Youth

WASHINGTON, April 1.—William Loughman, 22, was held in jail here today without bail on a murder charge, the aftermath of a youthful "eternal triangle" shooting here Saturday night, according to police.

Dorwood Heiney, 15, was fatally shot by Loughman, police claim. He died in a hospital yesterday from wounds.

According to the police investigation of the shooting, Heiney and John Jones were escorting Gertrude Baer, 19, to her home from a motion picture show Saturday evening and Loughman followed the trio. The two youths with the girl are said to have taken offense and a quarrel and the shooting followed.

Loughman was arrested about two o'clock Sunday morning, a few hours after the tragedy. Police announced that he confessed to the shooting.

which struck southeastern Missouri last night.

Poyner, Mo., a small town ten miles north of Doniphan, was completely wiped out.

A gale of 60-miles an hour tore through Indianapoli.

A score of persons are in hospitals in and near Poplar Bluff, Mo., where a cyclone struck late yesterday. No deaths were reported in that section of the storm which originated in Northern Arkansas and extended its path as far north as Mineral, Mo.

Millwaukee was completely isolated from the rest of the nation. Telegraph wires were torn down and only meager reports of the high winds damage here have been received.

Iowa and Illinois felt the effects of the gale.

The 60-mile gale was reported as far east as Detroit where damage estimated at \$10,000 was done at an airport, three planes and a hangar being wrecked. Ferryboat scheduled between Detroit and Windsor, Canada, were badly disrupted.

Although in diminished proportions, the high winds swept over Western Pennsylvania today causing damage and was responsible for one death at Ellwood City.

ELECTRIC GLOBES BROKEN

While the police were receiving numerous emergency calls this morning concerning trees being blown down and large plate glass windows being blown out by the high winds, they also received a number of reports about electric light globes in various parts of the city being broken in the force of the wind.

PA NEW OBSERVES

(Continued From Page One)

of Pennsylvania this year, the route being through Wheeling, W. Va., and on to Columbus, O.

Do you know, The New Castle News certainly travels around a lot, said Prof. R. X. Graham of Westminster College, on a visit to Pa. News. When we find some Westminster men from other parts of the country, we invariably find they have been keeping in touch with Westminster through The News.

Although this is April Fool Day, it doesn't seem to have been celebrated very extensively. Pa. News heard it mentioned only once during the morning. It certainly is a matter for gratitude that the weather of today didn't come yesterday. Easter day. About 10 o'clock this morning there was a deluge of no small proportions, just about the time that the ditzzy was getting ready for the trip to church yesterday.

The pile of earth which obstructed the channel of the Neshaunock creek on the east side of the stream has been removed by Contractor Byers, who is building the new North street bridge. A bigger pile is being thrown up along the west bank, however, where the abutment is being excavated for.

Pa. News observed a well-known local motorist stuck on the curb in front of the Highland U. P. church early yesterday afternoon. He had driven in too close to the curb and his fender caught when he tried to drive away. He was wedged in pretty tight, but finally extricated himself, losing considerable paint from the fender in the attempt.

Ma News and her daughters were out in all their glory yesterday and every public gathering displayed a fashion show in itself. New Easter longery was augmented by pretty corsages. The weather man entered into the spirit of the day and provided ideal weather during the early part of the day.

Troop F will come back into its own this evening when the recently formed Company B, mounted engineering unit, will be changed back to Troop F, 163rd Cavalry. It will sound natural to refer to our own guard unit as "The Troop."

Last week's temperature averaged 32.4 degrees. It won't be long now until one can shed his heavies and feel comfortable on a warm day.

Vegetation is rapidly advancing, and soon the early blossoming fruits, such as pears and cherries, will be in bloom. The early trees are beginning to show color and nature will burst forth in all her glory in a few days now.

The squirrels in the courthouse trees are a never-ending source of interest to visitors at the county building. It is especially interesting to watch the little fellows eat. They sit up apparently motionless, the rapid movement of their tiny jaws being the only sign of life. Occasionally they will reach over a paw and pick a kernel of corn off the ears which are kept on a board at the base of the big tree on the front lawn.

We don't just know whether March went out like a lion or not last evening. At any rate, it was pretty stormy during the evening, thunder storms, accompanied by heavy rains, ending a splendid Easter day.

New Castle had her first April shower this morning, the kind the poets probably referred to. The rain came down in intermittent bursts. Accompanying winds made it difficult to hold an umbrella.

The heavy wind this morning ruined more than one fine New Easter lid, to say nothing of a lot of dispositions. We saw one nice light fedora skipping through the water in the gutter along Mercer street, just after the heavy shower, the owner in hot pursuit. It was a sight to behold when he finally caught up with it.

New Castle motor club showed an increase of 193 per cent during the last five months of 1928. Motorists

are beginning to realize the advantage of belonging to this organization.

Even the firemen had a pleasant Easter. Not an alarm was turned in from Saturday noon until late this morning, for which the boys were quite thankful.

No bankruptcies have been reported to Referee Underwood in the last two weeks. This is gratifying news and shows that business is better.

have given, during many years, such unselfish and valuable service to their country," said President Hoover, after telegraphing his condolences to Pauline Herrick, the ambassador's son.

"Mr. Herrick's death will cause sorrow both at home and abroad. The President loved him for his sympathetic understanding, but realized that during his long service in Paris he never lost any of his love for his own country and therefore never failed in his representative capacity. I grieve for the death of a friend and the passing of a splendid public servant."

Gibson, who is to succeed to the Paris post, has been more than 20 years in foreign service. He entered the service as secretary to the American legation at Legation, in Honduras, in 1903, and for the last two decades has held many important posts, including the ministries to Poland and Switzerland.

On his frequent visits to Washington since the war he usually has been a house guest of the Hoovers.

ASK CITY SOLICITOR TO GIVE OPINION ON PENSION VALIDITY

marked that had the money been invested in government securities the fund would have increased \$1,000.

Burns heatedly replied that it was not his fault that the investment was not made, but was equally as well the fault of other councilmen and he declared that "the police are 'belly-aching' around about it."

He accused Reeves of "pulling the chestnuts" for other parties and said that case was one of "someone making the bullets and Reeves firing them." Burns declared the fireman had not been "belly-aching" but councilman Davies said: "You haven't heard what I have."

Reeves Says Action Required.

"I think the provisions of the ordinance should have been complied with," remarked Reeves, addressing Burns.

"You have been here a year, why didn't you do it?" asked Burns.

"I didn't know about it and you are the head of the finance department," retorted Reeves.

"What about this new ordinance?" demanded Burns.

Further argument ensued but it went to committee and on the test to report it out of committee favorably Burns, Davies and Gillespie voted favorably. Reeves and Tyler negative.

Tyler stated his position by explaining: "I have no personal grievances in this. I am sorry to have heard these remarks. However, I believe that Solicitor White should give us an opinion before we act. I doubt if the act, ordinance and pension matter are constitutional."

White said that the bill now awaiting the mayor's signature obviously is not constitutional.

"It will not surprise me if the law under which our ordinance is framed is found unconstitutional, too," remarked Tyler.

Tyler sometime ago said that if police and firemen are to receive pensions, other city employees should be included.

During the conversation about investment, Burns said that under the present ordinance the city cannot buy anything but government bonds and the city has to ask banks to carry municipal bonds.

He took the attitude that government bonds do not bring as much as good municipal bonds and that is why he introduced the amendment with the word "may" and "municipal securities" appended.

After the ordinance was reported favorably from committee councilmen saw Tyler's point in asking for an opinion and the amendment will not be printed until White presents one Friday.

Deaths of the Day

George A. Cain.

George Anderson Cain, aged 30 years, of 606 South Ray street, passed away in the New Castle hospital, Saturday, March 30 after an illness of six days of pneumonia.

Mr. Cain was born in Denver Falls, December 10, 1898, a son of Bruce and Sarah Davison Cain. He came to New Castle when a young man and spent the remainder of his life here. He was employed with the P. & L. E. Railroad Co. as a conductor. He was a member of the I. O. O. F. No. 105.

Besides his wife, Bernice Brown Cain he leaves his mother, Mrs. Sarah Delvall of Akron, one daughter, Shirley Jean and an adopted daughter, Betty Louise. He also leaves two half sisters and a half brother in Akron.

Funeral services will be conducted Tuesday, April 2 at 3 p. m. from his late home on South Ray street. Burial will be made in Oak Park cemetery.

GREAT RESULTS FROM COMPOUND

Read How This Medicine Helped This Woman

Brainerd, Minn.—"I read about Lydia E. Pinkham's Vegetable Compound in a newspaper and I have got great results from its tonic action on the change of life. Before I took it I was nervous and at times I was too weak to do my housework. I was this way about a year.

But now I do all my housework and do chores outside also. I must say that Lydia E. Pinkham's Vegetable Compound has done wonders for me and no woman should be without it. I sure can speak a good word for it."—Mrs. Jim Surra, R. R. 7, Brainerd, Minnesota.

A LETTER FROM GILBERT TO NEW CASTLE

METRO-GOLDWYN-MAYER STUDIOS
CULVER CITY, CAL.

My very dear Friend:

To you I most cordially address this letter, for I assure you I remember with gratitude the warm hearted tribute which you and your friends have so generously accorded me in previous Metro-Goldwyn Mayer productions. Now I again claim your favor as High Hand in that colorful story of gallant adventure and romance, in "Desert Nights", an original story by John Thomas Neville and Dale Van Every.

As the fearless lover of Diana (Mary Nolan) fighting his ruthless rival Steve (Ernest Torrence) through days of peril and third—nights of terror in the African desert to save the honor of Diana who held a fortune in stolen diamonds, the devil-may-care Hugh Hand proves himself the most adoring of lovers.

I felt particularly honored in being chosen by Director William Nigh for so important a role in this splendid picture I put all my best work and enthusiasm into it.

Hoping that "Desert Nights," my fellow artists, and myself may once again have the pleasure of entertaining you.

Believe me,
most sincerely yours,
JOHN GILBERT.

He Was Bone Dry.

By ARTHUR G. BRISBANE

Before Thursday's close a merger of the New York Chemical bank and the U. S. Mortgage & Trust company was announced. Four hundred million dollars in the combination was a \$12-000,000 million for stock owners.

German stocks have a boom. Berlin believes a revision of the Dawes plan will benefit all Germany.

Britain increases gold reserves. And France has an amount of gold that beats all records.

In France speculators borrow at four per cent. in Britain at five.

In "prosperous" America, men borrow at 10, 15 and 20 per cent.

They have no federal reserve bank over there, no financial super-power manager to stimulate usury, and milk the public.

A senator named Glass wants to investigate the National City bank because its president, C. E. Mitchell, acted to avert a panic as the original J. P. Morgan did occasionally.

The erudite senator probably thinks a panic would help.

A congressman of Chicago was rejected last fall as bone dry. Now, for liquor smuggling he may be jailed two years, fined \$5,000.

Man in this life plays many parts, but a bone dry candidate on election, smuggling liquor between elections would shock the country's moral sense if it were not shocked into insensibility already.

The congressman, M. A. Michaelson, for whom a warrant is issued, following indictment, has always been supported by the Illinois Anti-Saloon league.

Prohibition ceases to be a joke if you arrest a bone dry congressman merely because his valise leaks on the Jacksonville, Fla., station platform—that's what happened to Mr. Michaelson, homeward bound from Cuba.

He voted for the Jones law, \$10,000 fine, five years in jail for carrying liquor.

Britain's election, coming in May, worries Tories and British finance.

Five hundred thousand men out of work drawing the "dole" to help them from starving, represent one uncertainty.

The "fapper vote" which means young girls of 21, voting for the first time, represents another uncertainty.

Lloyd George promises to put the 500,000 idle to work, changing them on paper, on the dole, to wage earners, and plans a road building program and other public works.

This annoys the prosperous. They fear new taxes to pay wages to the unemployed.

Women, according to careful statistics, control 41 per cent of this country's wealth.

Three thousand years ago the world was ruled by a matriarchy—the mothers. Children took the mother's name, women ruled.

A statistician predicts a financial matriarchy by the year 2025, with all wealth in women's hands. Men will endeavor to prevent that. Many of them consider it almost a virtue to relieve women of money.

Georgia believes that no man should interfere with another's wife. W. Lawrence Shippey, young warehouse clerk, married a pretty blonde.

Hall Davis, churchman, philanthropist, noticed Mrs. Shippey. Shippey killed Davis, and told the jury his home had been wrecked.

The jury said "not guilty." The crowd, cheering, carried Shippey on their shoulders.

An Italian submarine, the "Mamel," has set a new world's record for deep diving, going down 384 feet.

All of that floor will be mapped and explored some day by men in submarines strong enough to stand terrific water pressure.

Termites, amazing ant-like creatures that infest the tropics, always avoiding sunlight, except on their wedding day, build houses, shaped like a skyscraper tower, 20 feet high.

Taking the comparative height of man and termite ants into consideration, the termite tower is seven times as high as anything ever built by man.

And New York state's silly legislature says no apartment houses shall be built hereafter more than 22 stories high.

You hear of wonderful things done by General Motors, General Electric, Anasconda Copper, Telephone and Telegraph. It is pleasing to know that individual states as well as great industrial units within them are prosperous.

CANDIDATES AND CRITICS

AN AUTHORITY on American politics has been writing on the practicality of candidates talking sincerely to the voters on the issues of the day. He has reached the conclusion that they cannot do so, and justifies evasion. And then he chides those who demand sincerity and candor in candidatorial expression. If the critics were candidates, he says, they very quickly would succumb to the realities of politics and be as evasive as any candidates now in the field.

Quite likely, but why chide the critics on that account? So long as they remain critics and do not become candidates they are entitled to the privileges, not to say duties, of the former role. That is part of the democratic process, and why should it be surrendered to make life easier for candidates? Would it promote decency in politics? And is there any sporting element in the matter, any consideration of fair play or rough justice, that should impel critics of high or low degree to lay off candidates? Merely to ask the question is to answer it.

Suspend challenge of politicians, give them license to twiddle their thumbs through their campaigns without hindrance, merely because they would be embarrassed by frank expression of their views? Not while a sense of humor holds out, not to mention a sense of duty. The candidatorial pack should be made to run the gauntlet.

CAPITAL THE PIONEER

NO OTHER element has been more conducive to public opposition to government ownership of utilities supplying light and power than the vision, energy and initiative shown under private operation in developing natural resources and in improving distribution of electricity whether generated by steam or water power.

The public is convinced that the amazing strides made in recent years in dependability of service and in extension of the uses of electricity could not have been brought about by bureaucracy. And while it appreciates the necessity of safeguarding the interests of consumers and ascertaining whether the business of up-building a great industry is proceeding along lines, the far-reaching importance of the work being done has unquestionably had large influence in persuading the American people that the industry has justified itself so far as actual results are concerned. There is need of control and regulation, but private management and private capital are demonstrating in this field, as they have in many others, efficiency that is a tribute to American genius, foresight and ability.

Due to the great cost of transporting electric power long distances and into sparsely settled farming country, power distribution in this field, under private ownership, is years ahead of what it would be under government ownership. Rural communities whose pleas for good roads have long gone unheard can attest to this. Private capital is speculative and pioneering. Government holds back until compelled to act. It is far easier to sell bonds and stocks of companies to finance new power lines than to prevail upon governments to issue bonds to give some farming section electricity.

OUTWITTING DEPRESSIONS

THE outstanding achievement of this financial era is diminution of losses due to fluctuations in the business cycle, the alternate swings from high production to low, from boom times to hard times. President Hoover once spoke of it as "one of the most astonishing transformations in economic history, the epitome of which lies in the fact of the parallel increase in wages with decreasing commodity prices."

The federal reserve system, which had first to fight for its birth and then for its continued existence, is partly responsible for this stabilization of conditions. Each year it functions more smoothly and more beneficially; and its natural evolution steadily increases its potential importance.

Another contributing development is the growing ability of the larger industries to finance themselves out of their own working capital instead of being obliged to rush to the banks for assistance in time of financial emergency or business deculture have helped mightily; and their benefits should not be discounted because they have not accomplished the impossible.

Much has been accomplished, especially since the war, in economy of production. The railroads have proved they can carry more freight at less cost, and many industries have found ways to increase production without a proportionate increase in operating costs. The dollar saved is the best dollar of all. It is not only a dollar earned but a dollar collected and produced by superior management.

RADIO ADS

IN A new series of commercial radio entertainments, it is announced, the listening public will not be told who the business sponsor is until the close of the program. This is a revolutionary change.

The business that is paying for the experiment thinks the public is getting tired of long commercial announcements. It wants entertainment. If a program has too frequent references to the sponsor's name, and what he makes or sells, the listener soon wears, regardless of its merit. This is sound psychology.

No doubt the public will like it better than the present system, as practiced by many radio advertisers. The only question is whether the more artistic and tactful method proposed will impress the advertiser's name and goods strongly enough, on enough people, to pay for the program. Maybe it will in the long run; but most advertisers want immediate results. Daily newspapers offer these with no static.

It's just a mile from his front gate to his front door. The citrus fruit crop was pretty well murdered during the hurricane, so this choice box coming so soon can be appreciated all the more. The reason Bert sent us this little gift is because he is our friend. You can't always tell your friends. Our thanks to him float far away over the seas to his pretty island home.

"Is There Something Halfbaked In The American Mass Mind?"

Question Raised By Oklahoma's Habit Of Electing Governors And Then Removing Them By Impeachment Proceedings

Is there "something halfbaked in almost said regardless of the justice the American mass mind?" This question suggested by Dr. Franklin H. Giddings of Columbia University is raised by the CINCINNATI TIMES-STAR in reflecting rather generally held impressions of the significance of Oklahoma's impeachment of another Governor.

Successive impeachments are regarded as evidence that the voters on election day have failed in their duty by many papers, including the PITTSBURGH POST-GAZETTE, DALLAS JOURNAL, MANCHESTER UNION and COLUMBUS OHIO STATE JOURNAL.

"A State may develop an internal disruption over issues wholly indistinguishable to the inhabitants of neighboring States," thinks the PORT WORTH RECORD-TELEGRAM. "In this instance that was particularly true. The readers of the nation never came to know what it was all about. If governors can be impeached because of 'general incompetence' claims of political enemies, what governor of the 48 may feel at ease?"

The new governor, W. T. Holloway, advises the HUSTON CHRONICLE, "may well feel that he is in a slight place as chief executive of the State. His two immediate predecessors left office at the request of the Legislature. Looking up at the portals of Oklahoma's executive mansion, he may well sigh, 'Abandon hope, all ye that enter here.'" The SYRACUSE HERALD concludes that "the average governor of Oklahoma follows a path of roses to the State Capitol and he is fortunate if he doesn't lose his office in a shower of brickbats."

"The star actor in Oklahoma's latest comedy-drama," as observed by the NEWARK EVENING NEWS, "leaves the stage uttering one triumphant line. To a group of faithful adherents he said: 'They acquitted me of every charge except incompetence; they considered me incompetent, irrelevant and immaterial.' This is a rank with lack of word of Cardinal Wolsey and Julius Caesar as reported by W. Shakespeare. No wonder women and strong men blanch as Johnson trod the Oklahoma Via Doloresa. To Governor Holloway, taking over the orb and scepter, the people of 47 other States of the Union can only say, 'Watch your step, Bill!'"

To impeach him because of incompetence is stretching, as believe the right of the Legislature to take such action," contends the SCRANTON TIMES, while the ALTOONA MIRROR feels it "barely possible that the legislative majority is quite as 'incompetent' as the governor." The LANSING STATE JOURNAL suspects "petty rancorous, personal politics," and the ROANOKE TIMES says: "Evidently the voters of Oklahoma thought Johnson was competent to discharge the duties of the office, else they would not have elected him to fill it. The Legislature, by its mandate of removal, thus overrules and sets aside the desire of the people expressed at the polls. For Johnson to serve as governor, it is in support of the removal of Governor Johnson, the OKLAHOMA CITY TIMES says: 'There were errors which should stand as a warning for future governors. The use of the militia was one. Americans resent military interference in government in all save the gravest emergencies. Persistence in keeping Mrs. O. O. Hammond in the position of confidential secretary was another. Mr. Johnson was unfortunate in his choice of advisers. He disrupted an efficient highway department, and replaced it with another that never has been satisfactory. He permitted politics to make changes in several State schools.'"

"The Legislature of Oklahoma," according to the NEW ORLEANS ITEM-TRIBUNE, "is to be complimented on this impeachment, regardless of the grounds for it. We had Couldn't get into your coat today For both of the sleeves were sungly planned. And somewhere watching not far away, I know that two little children grinned. And I found salt in my sugar bowl, And salt makes bitter the finest tea. I spluttered and muttered: 'Well bless my soul Who's been making a fool of me?' THE RACKETEER
The racketeer is the man who proposes to live without legitimate work. He proposes to prey on others who do work. Nothing is beneath him. He has no ethics and no scruples. He proceeds on the unspoken theory of the beast of prey—"to get his." The racketeer is simply a barbarian. He is a modern man who has reverted to savagery. There is no recognition on his part that civilization has come to the world. He is living in the past. Having done no good thinking and no good living, he has made no adjustments to the new world. The racketeer is a "throw-back" to pre-historic times.

Government To Have \$150,000,000 Surplus On June 30, Outlook

Federal Government Goes Into Final Quarter Of Fiscal Year With Big Surplus

Enormous Surplus Will Be Gleaned Unless Congress Makes Special Appropriations

By ROBERT S. THORNBURG
International News Service Staff Correspondent

WASHINGTON, April 1.—The government went into the last quarter of the fiscal year today with prospects of a surplus on June 30 of approximately \$150,000,000. The surplus may be even larger.

The estimate was based on the assumption that congress will not make appropriations at the special session calling for immediate expenditure of large amounts.

March collections of income and corporation taxes amounted to approximately \$500,000,000, indicating probable revenue of \$2,285,000,000 from this source for the year. Customs receipts for the year probably will reach \$590,000,000 and miscellaneous receipts about \$621,000,000, with total income around \$4,496,000,000.

Along with increases in income taxes and customs receipts expenditures were likewise piling up and it appeared that operation of the government for 1929 would require about \$3,850,000,000 or more.

Refunds of taxes up to April 1 were \$158,000,000, as compared to a total of \$148,000,000 for the entire 12 months of the year ending last June. This was one of the principal increases in governmental outlay. Interest will amount to approximately \$600,000,000, a drop of \$70,000,000 or more from the year before.

Rail Liquidations Drop.
The only source of revenue showing any appreciable drop was in payments from railroads to liquidate post-war reconstruction borrowing. That will be about \$150,000,000 less than last year. Other increases have made up over \$60,000,000 of that loss already and a continuation of the tendency may bring total receipts of the year to substantially the same as in 1928.

Operations in the public debt for the year will amount to approximately \$10,000,000,000, including bonds issued and those retired. Up to April 1 the debt reduction had amounted to \$367,000,000 for the year. The total reduction for 1929 will not reach the \$1,000,000,000 slash of the last few years, but it probably will not be far away from \$700,000,000.

the state Chamber of Commerce, has doubled its wealth in 15 years, making enormous strides in all directions. Bank deposits increased from \$255,000,000 in 15 years to \$8,900,000. In 1923 the value of Virginia's products rose from \$204,000,000 to \$513,000,000 in 14 years. And the story of Virginia is the story of every other state in the Union.

In the "Polo books," the good and industrious boy got rewards. The other boy did not. It is different in real life, sometimes. Charles Hughes and his two older brothers were told to come home early. Charles obeyed, the other two did not. Charles, rewarded with some money, was old. "Buy yourself a cake, you get this for minding what I told you."

The child, 7 years old, was run over by a taxi and killed on his way to the bakery to buy the cake. It is hard to find a moral in that.

Friends of the dog ask legislators to forbid cropping dogs' ears. They say Providence knows what kind of ears a dog should have.

There are dogs ordinarily cropped, the fighting kinds, bull terriers, etc., that would say, "Crop my ears, please, and leave the other dogs' ears alone so that I may have something to get hold of."

British finance is said to have changed its mind about excluding American owners of British stock from participation in a valuable stock distribution below the market price.

The head of British General Electric, who said, "American money is not wanted in Great Britain," appears not to speak for the entire British empire.

However, a change in the British General Electric matter will not cause Americans to forget the genuine down feeling, revealed by one financial jingo.

Electric Light Convention Plans

National Event Is Being Planned For Atlantic City In June

A motion talking picture bringing into the Convention Hall speakers of national and international fame; another motion talking picture giving lecture entitled "The Romance of Power"; spectacular displays and uses of electrical wonders among the exhibits; a great Festival of Light contributed by Atlantic City; the dedication of the new \$15,000,000 Auditorium; personal addresses by such men as Julius H. Barnes, Walter S. Gifford, Matthew S. Sloan, John W. Lieb, Marshall E. Sampson, Britton I. Budd, W. L. Ransom, A. W. Robertson, J. R. Howard, W. J. Fitzgerald, Charles L. Edgar, J. F. Owens, E. C. Stone, J. P. Ford, W. H. Onken, Jr., and others of similar calibre; famous operatic stars—these are just a few of the features which will mark the fifty-second Convention of the National Electric Light Association to be held in Atlantic City during the first week in June.

This convention—by far the greatest in its history—is being designed by the Association as a celebration of the 50th anniversary of the invention of the first practical incandescent lamp. It will also serve as an occasion to do special honor to Mr. Thomas A. Edison, the founder of the light and power industry. It will be given an entirely new setting and the visitor will not only receive a complete education in the history of the industry but a detailed picture of the tremendous progress which has been made during the past few years.

Although the Convention itself will not be formally opened until Monday, June 3, the Exhibition will open on Friday, May 31, at 6:00 p. m. This is to give the general public an opportunity, before the delegates to the Convention begin to arrive, to view a collection of electrical apparatus unparalleled in range and completeness. This exhibition will provide an educational opportunity of no small importance, showing, as it will, a wide variety of heavy apparatus and appliances which are the very backbone of electricity with light and power, in addition to the thousand and one devices for use in the home, the store and the factory.

The "Festival of Light" will begin on Friday and will be conducted throughout the Convention. This will celebrate not only the Golden Jubilee of Electric Light, but the Diamond Jubilee of Atlantic City as a municipality.

Thompson Takes Part In Central Cantata

Lawrence Thompson, who was choir director at the Central Presbyterian church several years ago, and who has recently returned to New Castle, took part in the cantata at the Central church last night as baritone soloist. The cantata was well rendered under the direction of Paul Welsh. Mrs. Clifford Probst and Mrs. Martha Sweet Shaw of the choir had the other solo parts.

Century-Old Newspapers Recall Forgotten Times

Local Resident Happens Across Time-Worn Copies Of Old Papers

DATA CONTAINED IS OF INTEREST

Several oldtime newspapers containing items of interest inasmuch as their contents lend striking contrast to the stories printed in the metropolitan dailies of today, are in the possession of Mrs. Mary A. Gilliland of 368 Neshaunock avenue.

Mrs. Gilliland uncovered the time-worn copies while in the midst of her spring house cleaning the other day. One of the old papers, "The National Intelligencer" of Washington, D. C., under date of Thursday, January 6, 1820, carries stories of unusual interest in its columns. All were then "hot shots" of the news of that day.

Most of the Intelligencer was occupied with lengthy accounts of congressional proceedings. The paper was five columns in width and there were four pages, and two entire pages told of the doings of the Senate and the House. When we speak of five columns we mean about seven of the present day, for the columns used then were wider.

Under one caption it was noticed that a copy of the The Cleveland Register of December 21, 1819 had just been received. It went on to tell of an editorial published in the Ohio paper and gave comments at the bottom. The fact that The Intelligencer carried the date of January 6, 1820 and the paper which it claims was "just received" carried the date of December 21, 1819, is one of marked importance. It is evidence enough of the

slow methods of communication then prevalent.

In another spot in the paper a caption "For Sale—A Yellow Boy" carries the announcement of a coming sale. It reads: "For sale a like boy for life, aged 13 years, sound and healthy, sold for want of employ. The sale is confined to the district or the community."

Featuring one page of the Washington paper, were a number of lengthy cuttings. This was particularly noticeable. One account of a death told the entire life history of the deceased and a long account of those who survived.

The headlines of that paper were characteristic of those used in the papers of that day. In fact the ones on the front page were few and far between. The stories, like in other old papers, started off with the beginning of the event, then developed it as it happened and brought out the climax, what might be termed "the lead" of today, somewhere away down towards the end of the story.

Mrs. Gilliland had a "Daily News" of Vicksburg, dated Thursday, July 18, 1863. Most of it was occupied with news from the north. This particular Daily News was printed on the back of wallpaper like many others during that period. The price of that copy alone was 25 cents. One column was devoted to the story of the bombardment of Vicksburg.

Another specimen was the copy of "The Camp Kettle" apparently published in a northern camp during the Civil war, at numerous places it mentions the name of Col. Leasure, probably the late Col. Daniel Leasure of New Castle whose army headquarters were at Hilton Heads, S. C.

Under the head of "Recruits" the paper carries this story: "The Roundheads and regiment is entitled to another full company (the 12th) and can receive about 200 men besides, to

fill up deficiencies in the present companies.

Applications to join can be made to T. M. McCord, New Brighton; Peter Crowl, Darlington; Daniel Dawson, Ohioville, Beaver county; Dr. W. R. Cowden of Portersville, Butler county; Joseph Kissick, New Castle, W. R. Francis, New Wilmington, Lawrence county; Thomas Kik, Hendersonville, Mercer county; William Hopkins, Washington, Washington county.

"All these and as many others as wish, will report to Col. James A. Ekin, acting U. S. quartermaster at Pittsburgh who will appoint a time at which all will rendezvous at Pittsburgh, and forward them to the regiment, free of expense by way of New York. Those desirous of connecting themselves with the history of this expedition, should avail themselves of this, their last opportunity."

Mrs. Gilliland's late husband was given the papers by his father, the late Robert Gilliland who was an attorney here. The latter was an intimate friend of Col. Daniel Leasure and it is supposed that he got the papers in this way.

OHIO MAN WILL MAKE ADDRESS

I. F. Mellinger, Leetonia Man, To Be Speaker Next Wednesday

Members of the New Castle Kiwanis club will once more have the pleasure of listening to I. F. Mellinger of Leetonia, lieutenant governor of the Ohio district of Kiwanis and a speaker of note, when they hold their regular meeting on Wednesday of this week.

Several years ago the speaker appeared before the club, taking as his subject at that time "New Toys." Mellinger is engaged in the lunger business in Ohio.

A directors' meeting of the club will be held at noon on Friday, April 5. A room at the Elks' club will be utilized for the purpose. The directors will at this meeting determine the number of delegates the local club should send to the international convention at Milwaukee the latter part of June. On Wednesday, April 10, the club will likely vote on who these delegates shall be.

Teacher Resigns At Slippery Rock

SLIPPERY ROCK, Pa., April 1.—Mrs. Roy A. Grubb, formerly Miss Elizabeth Gould, has resigned as instructor in English in the high school at Slippery Rock. After visiting a month at her old home in Hanover, Mass., Mrs. Grubb will join her husband in Pittsburgh. The latter is auditor for a system of chain stores.

LOCAL PEOPLE ARE HAVING FINE TIME

According to word received from Mr. and Mrs. C. B. Gibson of 313 Meyer avenue, they arrived in good shape at Long Beach, Cal., where they will spend several weeks. The flowers are wonderful there at the present time and the days are warm. The nights, however, are very cool. People are now enjoying bathing to the utmost at that place. Both Mr. and Mrs. Gibson are enjoying the best of health at the present time.

Answer to Yesterday's Puzzle

A QUICK-WITTED LIFE SAVER.

From the hole in the ice Peter had made with the stick up bubbled the water. And that was the beginning. In no time at all the boy had cleared the entrance to Mr. Muskrat's house. Now how should he get Duck out. The fellow didn't seem able to help himself. He'd try to rouse him to act.

"The ice is broken, Duck," called Peter. "Can you swim out of that hole? I will help you if you can once get into the pond, but I don't know how I can get to you in Mr. Muskrat's house! There is nothing for me to stand on and I know the water is so deep that I should sink if I waded in. Come, now, make up your mind you are going to swim out and you can!"

There was silence for a moment. Peter was afraid the Duck was too far gone to hear him, but at last the fellow weakly answered.

"It is all very well to make up your mind, but what are you going to do when you can't make your feet move?" asked Duck and the boy was glad to hear that at least the fellow's voice sounded stronger. "I did as you suggested and decided I would swim out, but that's all the good it did me. I tried and tried but not a muscle can move! The ice is broken, I am no longer sealed up but my legs are stiff with the cold and I can't make them go!"

"Then we must think of something else!" declared the boy. "Hurray! I have an idea. Is there anything the master with your beak?"

"Not that I know of" answered

"It will save your life!" cried the boy. "I am going to poke this long stick in at you. Now you catch hold of it with your beak and I will pull you out of your icy tomb."

Cold as he was the Duck gave a feeble cheer at Peter's words.

"Quack, quack!" There is hope for me yet!" cried he. "A moment ago and I had given up all idea of ever seeing any of my people again and now here's a chance of my getting out of this hole after all. Hurry up though. There is no telling when my beak will become as stiff as the rest of my body."

"Well there's the stick. Now all you have to do is to hold on tight. Are you ready?" called the boy.

"Ready!" was the answer and Duck gave a tug at his end of the stick to prove it. At once the boy started to clamber up the bank holding on to the stick with all his strength, nor did Peter stop going until he had towed the bird out of the icy water and landed him high and dry upon the shore.

Leaders In Oil For New Orleans Legion

(International News Service)
NEW ORLEANS, April 1.—Seven oil paintings of outstanding leaders of the Allied nations in the World War were recently presented to The American Legion by Maurice Barr. The portraits, all larger than life size, will be hung in the new reception room of the Legion home.

The subjects of the paintings are Woodrow Wilson, war-time President of the United States; General John J. Pershing, commander-in-chief of the A. E. F.; Admiral Sigsbee, commander of the American naval forces; King Albert of Belgium; Admiral Beatty, commander of the British navy and Generals Joffre and Petain, leading figures in the French army.

IF PRIVATE THOUGHTS WERE SPOKEN...

Jim lost many chances

..... because of "B.O."

"FINE, I'll write you when I have an opening," said Mr. Halliday, president of the company.

A white lie... to save Jim's feelings! Mr. Halliday hadn't any idea of hiring Jim, but he couldn't tell him why.

So Jim waited hopefully. And... never heard. Why? He was considered clever. A hard worker. Reliable. What was wrong?

Then one night, a poster caught his eye. "No one," it said, "is safe from 'B.O.' Body Odor!" Jim wondered. Could that... be his trouble?

Jim is certainly glad he acted on that idea. For as soon as he suspected his handicap and discovered the simple way to overcome it, things started to change. Today he has a fine job.

"B.O." is treacherous! It hurts us

socially. Ruins our business chances—without warning us. We never know when we offend. And no one will tell us.

Yet body odor is natural. We all have it—because to live we must perspire constantly. Even in cool weather our pores give off as much as a quart of odor-causing waste a day.

Why, then, risk embarrassment? Just bathe always with Lifebuoy, the purifying toilet soap. It ends "B.O."

So good for the skin

Lifebuoy's mild, antiseptic lather keeps skins glowing fresh and clear, too. Guards health—by removing germs. You'll quickly learn to love its pleasant extra-clean scent, which tells you Lifebuoy purifies, and which vanishes as you rinse. Adopt Lifebuoy today.

Pedestrians Are Becoming More Traffic-Minded

Motor Club Secretary Sees Big Change in Conditions in New Castle

The pedestrian is doing his share along with the motorist toward expediting street traffic movement, according to Bernard N. Hanlon, secretary of the New Castle Motor Club.

This disposition to be helpful, quite apart from regulation, is viewed as a heartening phase of the endeavors to solve the traffic problems of towns and cities throughout the country, it is found.

Successful solution of traffic problems depends to a large degree on the co-operation of pedestrians and motorists with the authorities whose duty it is to regulate and control traffic. He views it as a type of teamwork without which successful regulation is not possible.

Regulating the motorist alone will not solve the situation. The pedestrian must also do his part, and it is found that this is becoming the case. This does not lighten the responsibility of the motorist, but it does lighten the burden placed upon him.

Wind And Rain Cause Damage

Thousands Of Dollars Damage
In Mid West Section From
Severe Wind Storm

ENTIRE SECTION IN GRIP OF STORM

(International News Service)
CHICAGO, April 1.—Thousands of dollars worth of property damage was done in the mid-west today by a terrific wind and rain storm.

Indiana, Iowa and Wisconsin were severely struck.

Milwaukee is entirely isolated due to a total collapse of all wires of communication.

In some localities a drop of from 30 to 35 degrees accompanied the storm.

At Indianapolis the gale reached a velocity of nearly 60 miles an hour. Plate glass windows were shattered in many parts of the city.

Atlanta Bandits Take Large Sums In Two Holdups

(International News Service)
ATLANTA, April 1.—Two unmasked bandits today held up two employees of the Club Aluminum company at the point of a pistol and escaped with more than \$2,000 cash after rifling the company safe.

A few minutes later the robbery of several thousand dollars from the G. R. Kinney & Co. shoe store was discovered in another part of town, when the safe was found shattered. The robbery occurred some time during the night.

Zigmond Kolis Faces Very Severe Charge

While Officers Thomas and McMullen were at the Moravia street and Long avenue patrol box Sunday morning about 4 o'clock, they saw two men go into Center alley. These men were drunk and arguing.

Down the alley one of the men picked up a stone and struck the other man on the head, causing two severe injuries. The officers followed the assailant of the other man to his home and arrested him, he being Zigmond Kolis.

The other man gave the name of George Omlanke and claimed to have been robbed of \$55 by Kolis, as well as being assaulted by him. The injured man was removed to the New Castle hospital for treatment. Omlanke claimed that he had been relieved of \$55.

This morning Kolis was taken to the office of Alderman O. H. P. Green where he faces a serious charge due to assaulting Omlanke.

IMPORTANT BILLS AWAIT ACTION BY SOLONS TONIGHT

(Continued From Page One)

dealer is on the House calendar today as a special order of business and there seems to be no doubt concerning its passage by the lower branch of the legislature, the vote will probably be as large as the vote given the majority of bills passed by the House this session.

The fate of the measure in the Senate may be determined after the repeal bill committee in the Senate has an opportunity to work on it.

The House may be in position to act finally on gasoline tax measures tomorrow. Prior to the opening of the session tonight the House committee on Ways and Means will meet. This committee has in its possession the Sterling bill providing for collection of gasoline taxes from retailers, and the Talbot bill which says the gasoline taxes shall be collected from the distributors.

Four Cent Tax
Both measures now provide for a three cent tax but one or the other or both will be amended tonight so as to provide an additional cent emergency tax for one or two years. Statements attributed to Chairman Griffith of the house roads committee have said that the extra cent would only be imposed for one year.

Developments of the last week and studies of the revenues which will result from increases in drivers, truck and bus license fees would indicate that the extra tax for one year would be sufficient to carry out the road building program contained in the series of bills which passed the house last Monday night and are now in the Senate.

Differences in figures from various sources during the present session and also the 1927 session, especially on highway matters, are among the things which caused Representative Stirling, Philadelphia, to sponsor a bill last week which would give to the legislature an examiner who would go over accounts and give to the legislature but one set of figures.

Highway Bills Ready
The bills ready for final passage in the house tonight number less than a score but the second reading calendar carries more than 150 bills, all of which can be passed finally tomorrow. Included in the list of bills on second reading tonight are more than one hundred carrying appropriations for hospitals in various parts of the state.

The highway series of bills if passed by the senate finally and approved by the Governor will give to the department of highways approximately \$12,000,000 more during the coming biennium than the amount spent during the present biennium. The bill provides for a number of changes in the highway code which were recommended by the Governor in his biennial message to the legislature.

Children Roll Easter Eggs On White House Lawn

(International News Service)
WASHINGTON, April 1.—Thousands upon thousands of multi-colored eggs rotated crazily over the greensward of the spacious White House grounds today, only to end in ultimate destruction and a subsequent littering-up of the landscape.

The occasion was the annual Easter egg roll, a custom unique to Washington, which calls for the throwing open of the White House grounds to all the children of the city under ten years of age. From 9:30 a. m. to five p. m., they had carte blanche, and "pick" their eggs, eat their basket lunches and generally make a day of it.

Local produce dealers reported a 20 per cent increase in sales for last Friday and Saturday, and undoubtedly all of these extra eggs were destined for the boiler and the dye pots.

President and Mrs. Hoover will view the gay scene from the south portico, and once again the "robbed child" cry. The youngsters of Secretary of Labor and Mrs. James J. Davis—led the ceremonies.

Paper Mill Sold To Local Interests

Union Trust Co. Buys Property
In Interest Of Local
Bond Holders

Announcement was made today by Receiver John P. Lockhart, that the plant of the New Castle Paper Mill had been sold at receiver's sale Saturday afternoon to the Union Trust Co. of New Castle.

Several Pittsburgh concerns bid on the property in addition to the local trust company, who bid the property in as trustee for local bond holders.

No intimation was made as to what disposition of the property will be made by the trustee.

Three Persons Were Injured In Crash

Three persons were injured, one severely, Sunday afternoon at East and North streets, when the cars of R. J. Benson, 933 Beckford street, and T. W. Dahlberg, 908 Pearl street, came together.

Benson was going north on East street and making a turn west on North street on the green light, while Dahlberg was going south on East street on the same green light.

Mrs. Anna Benson, aged 62, of 908 Dewey avenue sustained a broken collar bone in the crash, while Mrs. R. J. Benson sustained injuries to the back. Miss Anna Dahlberg was also slightly injured.

Both machines were badly damaged. Entrance was effected by forcing a kitchen window. It is the opinion of the authorities that the person or persons responsible for the condition of the Wilkinson home might have been frightened away before getting anything of value.

Great Throngs At St. Mary's Church

Choir Gives Wonderful Rendition Of Special Easter Music

All masses at St. Mary's church were attended by congregations that filled the spacious interior of the church, but the congregation at the 11 o'clock mass was the greatest.

Featuring this mass was the special program of Easter music as presented by the junior and senior choirs of the church under the direction of Rev. F. S. Clifford and with Stephen Guliniski as organist and a ten-piece orchestra accompaniment.

The music was most splendidly rendered by the choir and orchestra and organ, the orchestra blending in wonderful harmony with the voices and pipe organ.

The rendition of the Easter hymn, Regina Coeli, which brings forth the joy of the Easter season due to the resurrection. The benediction at the close of this mass brought the services of the day to a close. Rev. J. Dudley Nee was the preacher at the 11 o'clock mass, delivering a special Easter sermon that was appreciated by all.

Motor Club Shows Membership Growth

According to information received today by Secretary Bernard N. Hanlon of the New Castle Motor Club, the membership in the organization increased 193 per cent during the months of May to December of 1928, when they were in their new quarters in The Castleton.

The increase for the state of Pennsylvania was but 17 per cent, showing that the local club was one of the front rank clubs.

The membership has been steadily increasing so far this year, and 1929 is expected to be another good year with the club.

Diller arrested Saturday night by Officers Dukes, Lockard and Richards, and held on a charge of suspicion, pending an investigation as to whether he was driving his machine while under the influence of liquor, was today assessed a fine of \$50 by Mayor W. H. Gillespie on a charge of disorderly conduct and upon his agreement to settle for damage done by his car to another machine.

NO FIRES REPORTED OVER WEEK-END

Easter proved an enjoyable and peaceful occasion for the New Castle firemen, not a single alarm having been turned in since Friday night.

Not even a grass fire was reported Sunday, showing that the bad boys of the city were on their good behavior.

Ministers Have Discussion On Church Activities

Matters pertaining to the advancement of the church were outstanding features of the meeting of the New Castle Ministerial Association this morning in the Y. M. C. A. A general discussion of matters of importance was given Adjutant E. J. Parkinson of the Salvation Army was present and presented the Centennial issue of "The War Cry," founders edition.

Mention was made of the offering that would be taken at the sacred concert in the First Congregational church next Sunday evening for the relief of the distressed miners in Great Britain.

The committee in charge of the concert asks that the association go on record as sympathetic toward this movement, also that the ministers announce the concert in their respective churches. The time is 8:30 so that all who wish may attend their own churches first. The request was made by Rev. S. Winding on behalf of the local committee.

The meeting closed with prayer by Rev. D. D. Stepp.

Men's Bible Class Wins In Contest At First Baptist

Spaghetti Supper Tuesday Night

The attendance contest that has been waged between the Men's Bible class and three women's classes, including those taught by H. E. Martin, Mrs. George M. Landis and Mrs. Paul D. Weller of the First Baptist Sunday school concluded Easter Sunday morning with a decisive victory for the men.

The men won the contest by a narrow margin of sixteen points having 193 in Sunday school yesterday morning. The rivalry has been most keen especially during the last two Sundays when it was announced that the sum of two hundred dollars would be given to the winning class.

Gypsies' Haven

Nation's Capital, Catering To The Occult, Recognizes Fortune Telling As Legitimate

By CHARLES P. STEWART (Washington Correspondent for Central Press and New Castle News)

WASHINGTON, April 1.—If Congress will monkey with the occult, it must expect trouble now and again. The occult is uncanny stuff and plays queer tricks occasionally on those who recognize its existence, as Congress does.

That is to say Congress recognizes fortune telling as a legitimate calling by regularly licensing its practitioners in Washington.

In most cities they are more or less outlawed—frowned on as doubly undesirable, at least. Here, with congressional approval (for Congress is the capital's city council), their professional standing—technically, anyway—is as unassailable as a doctor's or a lawyer's or a politician's or any other class of folks.

Naturally they like Washington. There undoubtedly are more of them domiciled within gunshot of the Capitol building—a gun capable, say, of laying down a barrage around a radius of two or three miles—than in any equal acreage elsewhere in the United States.

The gypsies are the most noticeable of the bunch.

Their habitat really is in the shadow of the Capitol dome—four or five blocks along lower Pennsylvania avenue and neighboring streets, near the Peace monument. The locale is judiciously chosen—tourists are thick in the Capitol's vicinity, and tourists afford good pickings for the gypsy tribe.

How genuine they are—as gypsies—I have my doubts, but they dress the part.

The gypsy chronicles and maidens sit out in front of the tumbledown old buildings which line the thoroughfares in that part of town—they sit out in front, in gypsy raiment and bright bandannas and bangles and all that kind of junk, and spiel for trade.

Rates are whatever the traffic will bear.

This brand of fortune telling is limited mostly to palmistry, and the tea leaf and playing card methods of divination, supplemented by the crystal ball at a few of the classier establishments.

Does anybody take the gypsies seriously?

Well, after what happened at York, Pa., who knows?

Higher up in the social and professional scale than the gypsies comes a varied assortment of psychics who can read your future in every imaginable way, and there is good reason to believe that a few of the topnotchers have patrons in very tony circles, indeed.

One woman astrologer, whom I have met, professes—and I believe her—to have revealed the secrets of the stars to a "first lady" or two. Moreover, this seeress appears to me to be more than half convinced of the authenticity of her own prophecies.

At all events, she casts a horoscope with all the conscientious care of Albert Einstein himself, working out the most intricate problems in relativity.

Many stories are current concerning the number of men high in public life who are represented as influenced in their official careers by occult advice, of one sort or another.

As to these rumors I am very skeptical. The eminent public men's women folk may be influenced thus, perhaps—but not, I think, many of the public men. In fact, a certain Prof. Hooz—shall I call him?—the chap would be a really scientific psychologist if he could afford it, instead of more fortune teller—anyway, Prof. Hooz told me candidly that such yarns almost invariably are pure fiction, circulated by the occultists to aggrandize themselves.

Be that as it may, the prevalence of occultism in Washington embarrasses Congress periodically.

Speed Up Divorce Cases In Mercer

Change In Return Dates Enables Attorneys To Clean Up Cases Quickly

MERCER, Pa., April 1.—The change in dates made by the Mercer County Bar Association on November 1st last, which now permits the filing of petitions on any first Monday rather than waiting until the four return days of the year which occurred each quarter has resulted in speeding up the time in which a divorce may now be secured.

For 100 years the rulings of practice made it obligatory to file cases on the first Monday of January, April, June and October. Papers of the interim period had to be held.

There are cases of record where over a year elapsed in completing the legal transaction. Now it is possible to file, have a master appointed and a decree recommended in the interval of time that used to elapse while awaiting a return day.

Prothonotary Mrs. J. O. Morse reports that the number filed remains on the same average of between 80 and 100 a year but results are far quicker.

The spring season here is far advanced. Former years states H. W. Allison veteran fruit grower of near Mercer.

Why Fat Returns when folks stop starving

One may reduce by starving, but the fat returns when one stops. The reason is this: Most people who are over-fat have an under-active thyroid. That is the gland which largely controls nutrition. Until this deficiency is corrected, much food goes to fat. Modern physicians, in treating obesity, aim at this condition. They use to correct it the chief factor used in Marmola's prescription tablets are made by a famous medical laboratory. The formula appears in every box, also the reason for results. Users know what they are taking and why.

When science discovered this method and proved it, the main factors were embodied in Marmola. That was over 20 years ago. Since then, people who were

Millions of Families Depend on Dr. Caldwell's Prescription

When Dr. Caldwell started to practice medicine, back in 1875, the needs for a laxative were not as great as they are today. People lived normal, quiet lives, ate plain, wholesome food, and got plenty of fresh air and sunshine. But even that early there were drastic physics and purges for the relief of constipation which Dr. Caldwell did not believe were good for human beings to put into their systems. So he wrote a prescription for a laxative to be used by his patients. The prescription for constipation that he used early in his practice, and which he put in drug stores in 1892 under the name of Dr. Caldwell's Syrup Pepsin, is a liquid vegetable remedy, intended for women, children and elderly people, and they need just such a mild, safe, gentle bowel stimulant as Syrup Pepsin.

Under successful management this prescription has proven its worth and is now the largest selling liquid laxative in the world. The fact that millions of bottles are used a year proves that it has won the confidence of people who needed it to get relief from headaches, biliousness, flatulence, indigestion, loss of appetite and sleep, bad breath, dyspepsia, colds and fevers.

Millions of families are now never without Dr. Caldwell's Syrup Pepsin, and if you will once start using it you

Your Broadway Mine

WALTER WINCHELL

Exclusive Central Press Dispatch to New Castle News.

NEW YORK, April 1.—Those Valentine's worshippers probably will be pining to learn that the late movie favorite has been forgotten by some New Yorkers at any rate. The fickle press of the public mind is a matter of record, but another concrete example of it asserted itself this week. Godard Neville, a dancer on the big time, is a dead ringer for Rudy. The Morning World spotted the strong resemblance and ran a story. The management of the Palace theater made a huge enlargement of Neville's and Valentino's features, and displayed them in the foyer with a photostatic copy of the newspaper account.

Bob Sylvester of the circuit promotion bureau stood in the lobby to hear the comments. He vows that at least a dozen persons poked fun at Valentino and otherwise maligned him, and one person was heard to query: "Whatever became of him, anyway?"

OF ALL CRANKS!

They are swapping this one in the Broadway sector about the very temperamental leading lady who blew up in her lines if a stage hand or any one made the slightest noise while she was acting. The stage hands they say, were forced to wear sneakers or shoes with rubber soles and heels. Recently she halted the performance by leaving the stage, and said to the stage manager: "Do I hear a clock ticking?"

"Yes'm," said the frightened stage manager.

"Well, was the amazing retort, 'have it stopped!'"

IN CASE YOU DIDN'T KNOW

Among other codes which bothered the federal people for many years was one of the underworld codes. The scheme was only employed for numbers from one to nine. Number 8, for

instance was a square; number 3 resembled an L, and number 7 was seven. All of which probably is as clear as mud to the layman, but take your pencil and make yourself a tick-tack-toe chart on the tabulated. Then insert the numbers beginning from left to right, and you'll savvy.

THINGS I NEVER KNEW TILL NOW

That a tablespoonful of olive oil before going on a drunk is supposed to keep you from getting "ick."

That when you tip the pretty hat check girl, she must turn it over to the concessionaire, who pays her \$35 per.

That the bottomiere you buy in a night club from the flower girl for a dollar can be purchased at a florist's for 20 cents.

That the reason Mascara burns a girl's eyes when it runs is because it consists of a soap mixture.

That Demaris Dore (Hoty Toley), the lass who got all that publicity after telling about the Fatty Walsh killing in Miami, is now with a "dash" act on the Loew circuit, and gets a roof-lifting ovation when she appears.

That a new racket on Broadway is betting any one (including Jack Dempsey) five dollars that he can't punch a hole through a Knox derby with one wallop.

That New York's orange juice king can't even drink the stuff.

NEW BREMEN, O., April 1.—A veteran of von Hindenberg's German army in the World war is aiding the efforts being made to try to procure a Distinguished Service Cross for the American soldier who, unarmed, captured the German and 16 others by a ruse.

The former German soldier is Max Christochowicz, 25, Lima, Ohio, accountant who came to the United States last January through arrangements made by Lewis J. C. Poppe, New Bremen, O., the American who captured him on the western front. The veterans have kept up a correspondence since the war.

Poppe, private in Company D, 16th regiment, first division, was on outpost duty near the Ramon-Lamunera road in France, Oct. 10, 1918. He had taken the squad's tent to the rear for water. It was just before dawn and he lost his way on the return. Private Poppe came unexpectedly upon a German soldier. Poppe had not carried his rifle to the rear but he decided to try to take the German prisoner. Anyway, creeping upon the German soldier, Poppe spoke in German, saying that any outcry would mean death. The American said 60 men were with him. Max called upon 16 men in the dug-out to come out and surrender. The American did not know the other men were there. After the Germans

had thrown aside their arms, they were marched to the rear by the American private who picked up a discarded rifle on the way.

Christochowicz, as a prisoner, was ordered to help carry a stretcher. He was wounded. Poppe, suffering from gas, later went to the hospital. There he saw Max at Hospital No. 123. There the friendship began which has continued since.

The stories of the two men have been accepted by the American Legion posts in Lima and New Bremen, where a movement has been started to try to obtain a medal for Poppe. Max, the former enemy, is aiding in supplying the information in order that the honor may come to the American, now his friend, who captured him by sheer strategy.

PLUMBER KILLED AS PIPE STRIKES WIRE

LANCASTER, Pa., April 1.—Edwin Wage, Jr., 17, was electrocuted last Saturday while at work in the Ironville Hotel on the Marietta pike, near this city. With his father, the youth was installing piping and a piece of pipe extending through a hole in the ceiling came in contact with a wire carrying 2,200 volts of electricity.

Dear Brother Lion:
We are going to Farrell again Tuesday night. We want every Lion to be at the Elk's Home at 5:30 as we did before and go over in a body. We will eat at the Methodist church and hold our regular meeting with the men of Farrell.

We want this to be a lively meeting. We have a snappy program arranged which should be our best for this year.

No meeting Tuesday noon.
Very truly yours,
THOMAS I. ELLIOTT,
Secretary.

Postmistress And Brother Arrested For Embezzlement

BUTLER, Pa., April 1.—Mrs. Jessie E. Taylor, 29, postmistress at Clayton since July 1, 1927, will have a hearing this week before a United States commissioner in Pittsburgh having been held in \$2,500 bond by Alderman George R. Kearns of Butler.

Allan D. McClure, 30, brother of Mrs. Taylor, will have a hearing at the same time. The two are charged with appropriating funds from the Clayton postoffice amounting to about \$3,800.

The charges of embezzlement were made by Postoffice Inspector Blake, working out of the Butler postoffice. Inspector Blake alleges that he found that money order records had been falsified in order to cover the shortage.

A feature of the case is that Mrs. Taylor succeeded Vance Pierce who was sentenced nearly two years ago following the discovery that he was short in his accounts. Mrs. Taylor is the mother of two small children.

Both Mrs. Taylor and McClure furnished bond of \$2,500 each for their appearance in the federal commissioner's office.

Frances F. Seley, teacher.

Remote Ancestors Were All Brunettes

(International News Service)

WACO, Texas, April 1.—Gentlemen may prefer blondes but Adam was a brunette.

Mrs. Martha Fowles-Haun, who recently retired from the Domestic Science Club here, is authority for the statement. Mrs. Fowles-Haun declared that all of our remote ancestors were brunettes. Time and environment produced blondes, she said.

The brunette thinks retrospectively, according to Mrs. Fowles-Haun. The blondes are the promoters of the world, she said.

No "Coolidge Avenue" For Dorchester, Mass.

(International News Service)

BOSTON, April 1.—Although a number of cities and towns throughout the country have honored Calvin Coolidge, former president of the United States, by using his name to designate streets and squares, residents of Fairview street, Dorchester, vigorously opposed changing the street to "Coolidge avenue."

Opposition to re-naming the street to "Coolidge" developed at a hearing before the Boston street commissioners.

National Dairy Show Will Open On May 11

(International News Service)

ST. LOUIS, April 1.—The new National Dairy Show buildings, under construction here, will be officially opened on May 11, with the St. Louis Exposition, which will be held May 11-25.

Among the exhibitions at the exposition will be illustrations of advances made in aviation, refrigeration, transportation, illumination and radio.

15 MEN INJURED IN PLANT MISHAP

STUEBENVILLE, O., April 1.—Fifteen workmen were hurt, three seriously, in the bar mill of the Wheeling Steel Corporation plant here, when a large fly wheel on a stationary engine flew to pieces, closely followed by the blowing out of a cylinder head.

James Hensley, Robert Martin and Shack Jones, Negro, were taken to a hospital suffering from cuts and bruises. Others were treated at the mill and removed to their homes.

The first Congregational church of this city had a committee appointed some time ago to handle this work.

With the assistance of the following artists it is planned to present the concert on Sunday evening, April 7, at 8:30 o'clock in the Congregational church on East Reynolds street.

Solos will be rendered by the following persons: Miss Frances Gibson, Miss Rebecca Garvin, Miss Blodwen Lewis, Arthur Thomas, Arthur Hultbert and Dr. W. A. Warner, while duets will be rendered by George Anthony and Harry Evans and Mrs. W. P. Felch and Samuel Lewis. Readings will be rendered by W. P. Williams and Griff Thomas. The Young Men's Bible class augmented male chorus will sing.

The regular evening service will commence at 7 o'clock sharp on the evening of April 7. Indications are that there will be a record attendance owing to the fine talent that will appear in the program and it will be necessary to come early in order to be sure of a seat.

Sacred Concert As Miners Benefit

Very Interesting Program To Be Presented By Best Talent Of City

A movement that is general throughout this country, especially where there are people of Welsh extraction or birth, is that of securing funds to be used in alleviating the suffering of the Welsh miners' families. This assistance is urgently needed.

The First Congregational church of this city had a committee appointed some time ago to handle this work. With the assistance of the following artists it is planned to present the concert on Sunday evening, April 7, at 8:30 o'clock in the Congregational church on East Reynolds street.

Solos will be rendered by the following persons: Miss Frances Gibson, Miss Rebecca Garvin, Miss Blodwen Lewis, Arthur Thomas, Arthur Hultbert and Dr. W. A. California Scientist Back's Boy's Ability

(International News Service)

BERKELEY, Cal., April 1.—Until now, scientists have believed that subnormal boys outnumbered subnormal girls. But Professor Olga Bridgman, psychologist and pediatrician at the University of California medical school, has found the opposite to be true.

She has completed an intelligence survey of 3675 boys and girls of subnormal intelligence, ranging between dullness and idiosy, the results of which were announced today.

In this group she found that boys outnumbered girls in the idiot, borderline and dull groups, while girls outnumbered boys in the imbecile and moron groups.

SAFETY INSPECTOR FINDS DRINKS SAFE

Detroit, Mich.—Charged with the responsibility of giving five thousand men care and protection throughout their night work, Mr. Michael Barratt, 321 East Wood Avenue, found his first responsibility that of keeping himself in shape to perform his duty. It looked as a problem until Mr. Barratt discovered that a simple change in diet cleared away his troubles and aided him in caring for his men. Speaking of the incident, Mr. Barratt says:

"After using one drink for forty years, I found it poor stuff to go to sleep on after obtaining a position as Night-Side Inspector in a large automobile plant in Detroit."

"Giving up coffee, I began to take other drugs in order to produce sleep but I was still unable to get the required amount of rest. KICK OF HORSE IS FATAL TO FARMER

WASHINGTON, Pa., April 1.—James McCalmont White, 38, farmer of near Hickory, died in the Washington hospital here from injuries and infection which followed his being kicked in the face by a horse while plowing. For a number of years he was superintendent of the Mt. Prospect Church Sunday school.

The total mileage of all highways in the country is 3,013,564 miles.

SAFETY FIRST!

Isn't it foolish to continue using a beverage known to contain a drug stimulant, when you can get the same mealtime enjoyment from a safe drink? Follow the wise lead of Mr. Barratt and millions of other Americans—eliminate caffeine from your diet—make Postum your mealtime drink instead!

Try this change for just thirty days—you'll see the difference! A difference in the way you sleep, in the way you feel—even in the way you look!

For Postum contains no caffeine, no drug of any kind. Postum is made of roasted whole wheat and bran—nothing in it to disturb sleep, to harass nerves, or affect digestion. Postum has such a wonderful flavor, too! A rich, distinctive flavor that makes it the most economical and beneficial beverage that science has produced.

Your grocer has Postum in two forms—Instant Postum, made instantly in cup, and Postum cereal, prepared by boiling. Both cost much less than a mealtime drink—only one-half cent a cup. Order today—start your good-day test.

TWO NATIONS MOURN DEATH OF AMBASSADOR M. T. HERRICK IN PARIS

(Continued From Page One)

throughout the ceremonies in the damp air for three hours.

At his bedside.

At his bedside when the end came were his daughter-in-law, Mrs. Fernely Herriek, his social secretary, Mme. Salambier, and Blanchard, the faithful valet who had saved his life in October, 1922, when a bomb exploded in the embassy. Two specialists in attendance also were present. Mrs. Herriek immediately notified her husband, the ambassador's son, who was in Cleveland, by trans-Atlantic telephone.

To the end Ambassador Herriek retained consciousness and appeared not to realize the seriousness of his condition.

Shortly after noon yesterday he was seized with a short, violent attack similar to the one which almost caused his death at Chagrin Falls last January. Specialists were called. Although they said he had but a fighting chance to live, he fought the attack with characteristic bravery and soon was smilingly conversing with his daughter-in-law.

Passes away.

Shortly after 4 o'clock, however,

while talking of arrangements for receiving Elihu Root who was scheduled to arrive here today, the ambassador suddenly sank backward against his pillow and died.

The body rested today in a flower banked room in the United States embassy adjoining the apartment where Col. Charles A. Lindbergh created the admiring crowds after his epic flight from New York.

According to present plans the body will be taken to the American cathedral on Wednesday pending the arrival of the last ambassador's son, Parmely Herriek, who is in the United States. It is expected he will arrive here at the end of this week.

The same vast and reverent crowds that visited Marshal Foch's home to view the remains of that famous soldier slightly more than a week ago gathered outside the American embassy to pay similar tribute to the memory of the beloved diplomat.

The press united in eulogizing Mr. Herriek as "a second Benjamin Franklin and a symbol of Franco-American amity." Most of the papers printed two column photographs of the distinguished diplomat with captions expressing the highest friendship and esteem.

The body may be taken to the United States upon a French cruiser if this is agreeable to the United States government and the Herriek family.

Motorcyclist Is Being Sought

Motorcycle And Sidecar Found Damaged Near Mahoning River

Corporal Black of the Pennsylvania highway patrol this afternoon commenced the investigation into the reported disappearance of Pete Trappalis, Beaver Falls and the discovery of his motorcycle near the Mahoning river bridge, near Mahoningtown. Today Beaver Falls reported that the motorcyclist is missing. His machine has been found.

According to Black the motorcycle was standing 50 feet from the river last night, illuminated at 6 o'clock last night.

The front of the motorcycle which also has a sidecar attachment was damaged.

Corporal Black at that time thought the rider had gone to secure repairs. Since the report saying that it is possible Trappalis may have fallen or wandered into the river has been received here the investigation has started.

Mexican Girl Film Star In Pittsburgh

Lupe Velez, Beautiful Mexican Film Star Tells Reporters She Is Ugly

(International News Service) PITTSBURGH, April 1.—"I'm ugly and don't care for money—a whole lot."

Lupe Velez, petite Mexican film star, waited until April Fool's Day to make a statement, but anyway she insisted that such was the case. And not only that, but she says that she laughed at movie directors when they suggested that she take the screen test. Miss Velez arrived here yesterday to make a personal appearance with a movie film.

The star confidently believes that she's not good looking. But then, she Americanized enough to know what day this is she didn't say "April Fool" as amazed reporters looked at her, but there was a twinkle in her eyes.

There's a spot in my heart which no color can fill.
There's a depth in my soul never sounded or known.
There's a place in my memory, my life, that you fill.
No other can take it, no one ever will.

Sure I love the dear silver that shines in your hair.
And the brow that's all furrowed, and wrinkled with care.
I kiss the dear fingers, so toll-worn for me.
Oh, God! bless you and keep you, Mother Machree!

Every sorrow or care in the dear days gone by
Was made bright by the light of the smile in your eye.
Like a candle that's set in a window at night
Your fond love has cheered me, and guided me right.

Life On Other Worlds

By S. S. MYERS

"I want to thank you for your short articles on astronomy. They make things very much plainer than the text books. I have read on that subject which use terms that the common reader cannot understand.

Will you kindly give us a short sketch relative to the opinion of astronomers as to life on other worlds? Is there life on any other of the planets of the solar system? We are told that our universe is composed of millions of suns. Do any of these other suns have planets like our sun, peopled with intelligent beings. If not, why all of this creation? If there are millions of other worlds containing intelligent beings, it would seem that the human race is not the whole thing in the scheme of creation as set forth in practically all of the religious systems of the world. Has science anything to say along this line?" (T. V. H., Ellwood City.)

The great trouble with most of us is that we try to limit the power and wisdom of the Creator. We are too apt to judge infinity by the finite. It is impossible for finite mind to fully grasp the mind of Him who created and controls the universe. But the science of astronomy has wonderfully broadened our conception of the Creator and of life in general. The more we study the works of creation the closer we come in touch with mind of the Creator and the more we see how little we know. Isaac Newton said: "I gather a few pebbles of knowledge from the beach with vast, unexplored continents before me."

Giordano was burned at the stake for teaching that there were many inhabited worlds among the stars. It was thought that if God had creatures in so many worlds throughout boundless space to look after the people of the earth could not claim His exclusive care. It was simply a case of limiting the power and wisdom of the creator as some are prone to do yet today.

As to the other planets of the solar system we have no assurance that any life exists there. We have some reason to believe, or suppose, that there is life on Mars and perhaps on Venus, but it would be impossible for the other planets in the condition in which they are now. Millions of years hence some of them may become inhabitable, but that is a long way off.

So far as other planetary systems existing throughout the universe, peopled with intelligent beings is concerned, we know nothing. No telescope has yet been constructed powerful enough to solve the mystery. When the new 200 inch telescope is completed it may clear up many things which are now merely conjecture, as it will be twice as powerful as that on Mount Wilson and will enable the astronomer to look out four hundred million light years into space.

If there are other worlds scattered throughout the universe, peopled with intelligence, why can we not conceive of them as perfect beings, such as man was intended to be—beings who never transgressed the laws of the Creator and who never required the special redemption necessary for fallen mankind. In my opinion there is no reason why we should compare the inhabitants of other worlds with ourselves, if any such exist.

Furthermore, we are getting away from the idea that heaven is merely a city with golden paved streets where we shall do nothing but play on a harp. Heaven is broader than the mind of man. "Now we see through a glass darkly, but the time will come when we shall know even as we are known."

Would Eliminate All Advertising Signs On Federal Aid Highways

By ARTHUR C. WIMER,
Washington Correspondent, New
Castle News

WASHINGTON, D. C., April 1.—The enactment of legislation to effect the complete elimination of all advertising signs along every mile of federal aid highway in Pennsylvania is favored by Thomas H. McDonald, chief of the United States bureau of public roads.

The public roads bureau has just completed a canvas of advertising signs on highways of the country and has found that unsightly signs are constantly increasing along roadways, with the automobile industry and those industries which serve it, predominating in placing such disfiguring billboards.

The bureau, in making a report on the canvas, expresses doubt as to the advertising value of such signs and states that the signs not only are displeasing to the eye but are so placed at bends in highways and cross roads as to endanger motorists and to decrease the effectiveness of the standard road signs of direction and danger.

Mr. McDonald, as chief of the roads bureau, states the census reveals that in practically all cases the roadside advertisements are unneeded by the public and expresses the hope that Congress will pass legislation completely eradicating them from every mile of federal aid highway.

HUSBAND AND WIFE HELPED BY TEN HERBS

Letter Says It's A Wonderful Medicine; Been Years Since They Felt So Well.

"Ten Herbs is a wonderful medicine—that is the tribute many local people are paying this celebrated new herbal compound. The remarkable success of Ten Herbs is due to its ten wonderful herbal ingredients, which

MRS. JAMES S. MINOR

are scientifically compounded in such a way that makes it an entirely new and totally different medicine—one that goes to the source of stomach, liver, kidney and bowel disorders, rheumatism, neuritis, nervousness and a general weak run-down condition. No wonder there is such a tremendous demand for Ten Herbs at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where the Ten Herbs Man is daily demonstrating this preparation, which has millions of friends.

"Ten Herbs surely is a wonderful medicine," said Mrs. James S. Minor, Route 2, Bridgeville, Pa. (near Pittsburgh). "I was troubled with my stomach, which finally got so bad that I could eat scarcely anything. Gas formed around my heart, causing pain and palpitation. My husband was troubled in about the same way, and was told that he had an ulcerated stomach, which caused him considerable worry. At times I was bilious and had terrible headaches and dizzy spells. We were both bothered with constipation.

"We started using Ten Herbs, and I can truthfully say that it has been years since we felt so well. Neither of us are troubled with indigestion, gas, or palpitation of heart any more. We have good appetites and food digests properly. Constipation has been corrected. I am free of bilious attacks, headaches and dizzy spells. Ten Herbs gave us such good results that we are pleased to endorse your medicine to the public.

Ten Herbs has a cleansing, soothing, correcting action on the whole system, eliminating poisonous waste matter and impurities, which often cause much suffering. Ten Herbs also is a splendid spring tonic for all members of the family.

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily meeting the public and explaining the merits of this medicine.

South Siders Of 25 Years Ago To Meet In Reunion

Boys Of Old South Side Of
Quarter Century Ago To
Gather April 3

In the Elks Home on Wednesday, April 3, a rather unusual gathering will be held. The boys who played on the South Side 25 years ago will hold a banquet and from the indications the banquet room will be crowded.

Carl Weide is handling the arrangements for the banquet and all ex-Southsiders who are interested in the reunion are requested to get in touch with him at the post office.

Not all of the old gang will be present. Many of them are scattered over the country, but a large number of them who have grown to manhood here in their home city will be present. The banquet starts at 6:30.

Says Widening Of Wilmington Road Premature

W. C. M. Drake Believes Some
Of Mud Roads Should Be
Improved First

"It looks kind of out of order for the state to spend large sums of money widening an improved road like that to New Wilmington," said W. C. M. Drake, prominent farmer, residing on the East Brook-Volant state road "and leave so many of us on the East Brook-Volant state road in the mud and mire. It looks to me as though they should help some of us fellows out of the mud before they spend so much money on a road that is already in fairly good shape."

"It's my opinion and also that of lots of other farmers on unimproved roads in this county, as well as elsewhere, that it should be the policy to get everybody out of the mud as near as possible and especially, where the roads are in the control of the state, rather than spend it on roads that are already hard surfaced. When all have been placed out of the mud that it is possible to get out by improving main roads, it would be time enough for the state to widen and improve other roads."

Remove Pile Of Earth From River

The big pile of dirt which was thrown into the Neshannock river channel along the east bank of the creek when the eastern abutment of the new bridge was built, has been removed by Contractor Evers.

Councilman Reeves made complaint against the situation in council last week, stating that it heightened the flood danger during the present period of spring rains. Mr. Evers took steps to remove the dirt at once when his attention was called to the situation.

Federal Court In Pittsburgh Opened Today

Long Criminal List Before
Federal Court Opening
Four-Week Session

LIQUOR VIOLATORS
WILL BE TRIED

(International News Service)
PITTSBURGH, April 1.—The federal court opened its special four-week session here today with more than 250 criminal cases listed for trial, the greater majority of them being brought under the national prohibition law. Among the latter are the interstate rum ring conspiracy, and two Pittsburgh rum conspiracies.

Sheriff Arno S. McClellan of Greene county and Albert Scales, of Montezuma, are scheduled to go on trial the week of April 22 on charges growing out of an alleged Pennsylvania and West Virginia rum ring. Some eighteen others are indicted with them as alleged members of the ring. Archie Negleman, former prohibition agent, is the other principal in the ring, according to federal officials. He has not been apprehended.

Sheriff McClellan surrendered voluntarily several weeks ago and posted bond. Following his indictment by the grand jury sitting in Erie, he again surrendered Saturday and furnished \$3,500 bond for his appearance. This was an increase of \$1,500 on the bond first posted.

Scales, also a former prohibition agent, surrendered last week after a long search had been made for him. He posted bond and was released. All but three of those apprehended in this case have furnished bond.

In the Pittsburgh conspiracy cases there are 24 defendants including State Representative Luke Sullivan and former Police Magistrate John W. Orie and his brother Stanley Orie.

Future Changes In Re-Discount
Rate Among Matters To
Be Discussed

(International News Service)
WASHINGTON, April 1.—Important problems of Federal reserve system policy, including speculative credit, were considered today at the opening session of the semi-annual conference of reserve bank governors.

It was the first gathering of the bank heads since the board inaugurated its campaign to reduce the amount of bank credit placed in the stock market. Approval of the board's stand was regarded as probable.

On the program also were future changes in rediscount rates, provision for adequate financing of the spring revival of commerce, industry and agriculture, and possible legislation to broaden the scope of the reserve board's powers over credit control.

The meeting will close Wednesday with a joint session with the board.

Announce Appropriations For State Owned Institutions

(International News Service)
HARRISBURG, April 1.—M. G. Leslie and C. Jay Goodnough, chairman of the Senate and House Appropriation committees, today announced specific appropriation recommendations for the various state owned institutions.

For the medical and surgical hospitals the amounts were as follows: Philadelphia, \$195,000; Shamokin, \$250,000; Ashland, \$510,000; Blossburg, \$184,000; Coaldale, \$222,000; Conneautville, \$207,000; Hazleton, \$300,000; Locust Mountain, \$236,000; Nanticoke, \$235,000; and Scranton, \$451,450.

The amounts announced cover not only the sum which the state will contribute but also the payments which each will make into the proposed department of revenue. Under that act all money collected for services rendered will be turned into the state treasury and then returned to the institutions.

Penal and correctional allotments were as follows:

Huntingdon, \$1,178,000; Morgantown, \$724,000; Muncy, \$288,000; Eastern penitentiary, \$1,567,500; Western penitentiary, \$1,227,000; Rockview, \$582,000. For new construction at Eastern penitentiary, \$3,500,000 was recommended and \$520,000 at Glen Mills. The totals for the institutions for the feeble minded were as follows: Selinsgrove, \$308,000; Laurelton, \$441,000; Pennhurst, \$822,000; Polk, \$1,266,000; Cumberland, \$250,000; Elwyn, \$420,000.

Appropriations for the mental hospitals were as follows:

Allentown, \$1,030,000; Danville, \$1,302,000; Fairview, \$481,300; Torrence, \$577,000; Warren, \$1,311,000; Wernersville, \$778,000; Harrisburg, \$1,046,000; Norristown, \$1,843,000; Dikmont, \$330,000.

For county and poor district maintenance \$2,260,000 was recommended.

Long Sleep Makes Baby Happy Again

"Our baby kept waking us several times a night, until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look and feel worlds better." Baby specialists endorse Fletcher's Castoria, and millions of mothers know how this purely vegetable, harmless preparation helps babies and children, with colic, constipation, colds, diarrhea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

Three Accidents And Two Arrests Made

State Highway Police Active In
Investigating Reports
Sent Detail

Automobile accidents and arrests last night kept the Pennsylvania highway patrol stationed here on the table. Lawrence and Beaver counties. Two auto wrecks occurred in which one person was injured and two are under arrest for operating motor vehicles while intoxicated. At six o'clock last night a car op-

erated by a woman and containing two small daughters overturned at Harbor bridge.

Passing automobilists quickly rescued the children and the woman from the overturned machine.

The name of the mother was not learned, as she was removed to her home, probably in Ohio, and patrolmen were not notified.

Robert Brown, R. D. 4, operating toward New Castle on the Youngstown highway in Union township figured in a crash. His automobile went over an embankment when glaring lights blinded his vision. He escaped injury. The car was wrecked. Corporal Black had the car towed to a local garage.

Private Paul reported a car having been ditched and damaged along the New Castle-Youngstown road near New Bedford.

Private McDermott arrested two operators on a charge of operating cars while they were intoxicated. One man ran his car into a fence near Koppel. The other was arrested on the Wainpump-Beaver Falls road in Beaver county.

Windows And Trees Suffer In Storm

High Wind Causes Some Damage In New Castle This Morning

Terrific winds that swept through the city shortly before noon today did considerable damage throughout the city, according to the reports received by the police.

A large plate glass window on the South street front of the Lawrence Automobile company, was hit by the terrific force of the wind and while not blown out, was cracked so badly that a new plate glass window will have to be placed in the front.

Large trees were also blown out and in the street in such a way as to obstruct traffic at 117 East Falls street and 170 North Jefferson street.

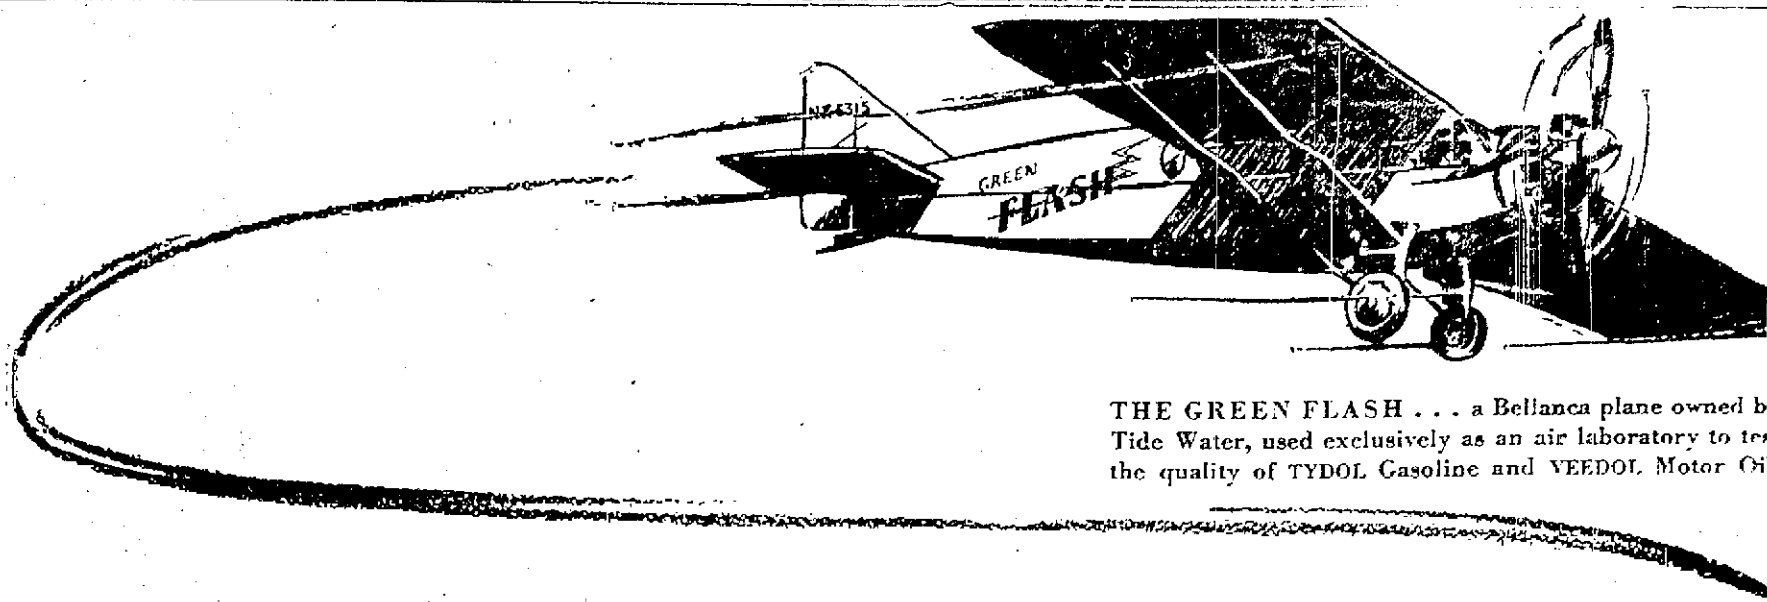

The tin roof was also torn loose on the building adjoining the Dome theatre on East Washington street.

The police were kept busy for a time answering calls of this kind and clearing up resulting conditions.

Attractive Program At Almira Home

The King's Daughters of the First Methodist Episcopal church gave an attractive Easter program to the Almira Home Sunday afternoon.

This was the annual entertainment given by the organization and was greatly appreciated by the ladies of the Home.

Mrs. Robert Garvin was in charge of the program. Selections by the men's quartet of the Men's Bible class and a duet number by Miss Jean Hat-

man and Cecil Morris were given. A reading by Wanda White and a violin solo by Miss Anna Kennedy were well received.

The address of the afternoon was given by Mrs. R. Frederick Roberts. Following the program an informal social time was enjoyed at which time each lady of the home was presented with a carnation.

INSURANCE RATE REDUCTION FOR GOOD DRIVERS

Owners of private passenger automobiles here in New Castle, Pa., and vicinity, whose cars have not been involved in accidents and who have not within the last two years been convicted of any major violations of the motor vehicle laws can obtain a 10 per cent. reduction in the cost of their automobile public liability and property damage insurance, by having E. F. Connelly write their insurance with the Travelers of Hartford, Conn., the largest multiple-line insurance organization in the world.

The new plan of The Travelers, Mr. Connelly says, applies to car owners, whether previously insured or not, who can comply with the qualifications of either plan, and who have taken out insurance with The Travelers since March 25, will be able to obtain the 10 per cent. reduction by securing a premium credit endorsement containing the required declarations over his signature.

The rate reduction applies to private passenger automobiles, used either for pleasure or business purposes.

Mr. Connelly predicts that many car owners here in New Castle, Pa., and vicinity will be quick to take advantage of this new plan, as well as the recently announced Instalment Payment Plan. He is glad to explain the details of either plan, and to take care of automobile owners who wish to place their insurance with the company with a country-wide claim service, and 64 per cent. more automobile insurance than any other company. Glimpses Of Nature

By Owen Penfield Fox.

The sun was shining golden as I entered the woods on my first visit to the haunts of Nature.

The gentle winds of spring were swaying the tall leafless trees, which caused a low crooning song. I moved carefully along a path, covered with leaves that were mushy wet, from the snow of the past winter. I watched my steps carefully, as to not snap the many twigs lying about, as the least sound may frighten away some woodland creature.

As I went on, the woods seemed empty of wild life, no early song of birds, not even the happy chatter of squirrels. Here and there I found the closed tips of the skunk cabbage as they pushed their way through the damp spread leaves. I found gall berries and bay bushes that were showing evidence of life. I found patches of pale green shoots with hooked ends, and with each day a bit higher they grow, later to unfold into tall lacy ferns.

Making this trip into the woods to discover the haunts of early birds and after an hour my quest seemed to be fruitless, and I was about to return, tracing my steps back to where I had started, when there came to my ear the sound of running water. Some-thing told me I was about to find a playground of early spring birds, and sure enough as I walked along slowly and noiselessly I came to an opening in the woods where a small stream, released from the grip of the ice king, sprayed the over-hanging bushes, in-

its new found freedom. To my surprise I saw the white tail of the vesper sparrow as they rode the green and golden canes of the willows growing by the water's edge.

I watched a white breasted nuthatch as he ran along upside down on the limb of an oak tree, and a song sparrow with black spots on each breast, burst into canary-like warblings.

Then I saw a bird which repaid me for all the time I had spent in the woods. A mountain dipper, sitting perched on a rock near the water's edge, it's head moving from side to side as if searching for something, then suddenly it slid into the water and rode it like a cork, then disappeared from sight.

As I left this open place in the woods satisfied with my discoveries, I was sure the magic wand of spring had touched the grasses and every sapling, which would dress them in the green of spring.

Indiana Gunmen Will Now Face Death Penalty

By EUGENE J. CADOU
International News Service Staff Correspondent

INDIANAPOLIS, April 1.—Warned by the gang warfare in Chicago, just across the state line, members of the Indiana legislature at their recent session took steps to strengthen existing statutes against gunmen.

The Hoosier legislators passed a bill providing life imprisonment where a victim is wounded in the commission of a burglary, rape, banditry or highway robbery, and the mandatory death penalty when a victim is killed. Another bill passed creates a new crime for bandits who commit felonies or larcenies while armed with firearms. Determinate prison sentences of from 10 to 20 years are stipulated in addition to other existing penalties. Both measures were signed by Governor Harry C. Leslie.

Kidnaping Penalty. Penalties for kidnaping were raised from two to 14 years to a life sentence by another measure.

The solons tackled the problem of delays in court procedure while criminals are out on bond for several years by passing a bill, signed by the governor, which allows the court of appeals to determine whether bail shall be granted pending appeals instead of the lower court. The appeals court may grant bail only when there is reasonable belief that a reversal of the lower court's decision is likely, according to law.

Bandits who travel about in armored automobiles were affected by a bill passed which makes it a felony for any private individual to own, operate or use an armored motor car, and provides penalties of from five to 21 years imprisonment.

Other Legislation. Other important steps taken by the Indiana legislature were: Abolishment of the primary nomination of candidates for United States senators and governor and the presidential preferential primary, with a return to the convention system for those offices.

Elimination of the speed limit on country roads.

Increase from three to four cents a gallon of the automobile gasoline tax, money to be used for road building.

Establishment of a tax levy to construct a \$1,000,000 state library and historical building.

Strengthening of the city manager law.

Refusal of Governor Leslie to sign the "college bootlegger" bill making it a felony to sell or give away liquor to a minor.

Road Bonds Passed By New Hampshire

(International News Service)
CONCORD, N. H., April 1.—Passage by the New Hampshire legislature of two bills, signed by Governor Charles W. Tobey, providing for bond issues totalling \$8,750,000 has assured an enlarged highway program for the Granite State.

The New England Council has for some time urged upon the Legislatures of each state in New England, the pressing need of a \$1,000,000 a year program covering a period of ten years, for the construction of concrete highways in the six New England States. They suggested increase in automobile registration fee, increase in gasoline tax, or bond issues as possible methods of obtaining the funds.

The New Hampshire Council held a series of meetings here on the subject of highway construction and as a result two bills were introduced into the State Legislature.

The Dickinson bill, sponsored by Milan A. Dickinson, acting chairman of the New Hampshire division of the Council, authorized a bond issue of \$8,000,000 to be expended during the 10 years, and to be retired by 1944.

The Seavey bill authorized the raising of \$750,000 to be loaned to towns to aid them in completing sections of trunk lines within their limits.

Germans Will Study South America Tribes

BERLIN, April 1.—Dr. Ado Baessler of the Ethnographic Museum of Berlin on May 1 will lead a fifth expedition to South America. With Buenos Ayres as the starting point, he will follow the course of the Parana river on horses and mules to study Indian tribes in the Gran Chaco region. Later he plans to investigate secret leagues of Indians and half breeds in southern Bolivia.

Continuing by way of Lake Titicaca and Cuzco he will journey northward to Lima, investigating the history of the Incas. His final objective is in the jungle down the Ucayali river where cannibal tribes of Indians have been reported.

Youth Takes Final Navy Examination

Charles M. Weaver, son of Mike Weaver of 1084 East Long avenue, left for Pittsburgh today to take the final examination for entrance into the service of the United States navy.

If Weaver satisfactorily completes the requirements of the examination, he will be assigned to duty in the service immediately.

Window Shattered At New Castle Dry During High Wind

Men Holding In Window Have Narrow Escape When The Crash Came This Morning

During the terrific wind storm which blew over the city this forenoon one of the plate glass windows on the east side of the New Castle Dry Goods Company's store was blown out.

Employees noticed that the glass was bulging and summoned William Atkinson of the New Castle Paint and Glass Company. When Mr. Atkinson arrived there was nothing that he could do except to try to hold the window, which was bulging toward the street. He was assisted by several others, but in spite of all they could do one of the windows crashed. Fortunately no one was injured.

The window which was blown out had recently been put in to replace one that was blown out during a previous storm. At that time the window was braced and it was thought would hold. However, it appears that there is a tremendous suction which develops on the inside during a high wind. There are two mammoth plate glass windows in the front, divided by a copper strip and brace. After a part of the window had blown out the other part was held in place, as the suction was not so great.

During the storm one of the large globes on the Washington street bridge blew off and nearly went through the window of an automobile.

Two Church Bodies Unite On Sunday

Large Congregations Feature First Service Of German And Pentecostal Assemblies

Easter Sunday marked the first service of the uniting of the two pentecostal assemblies of New Castle into one church body. The German Pentecostal assembly who have been conducting services on West Grant street united with the Pentecostal tabernacle on South street.

The church was filled with large congregations at all services during the day. The pastor Rev. Thomas Logan, D. D., preached both morning and evening. In the afternoon a missionary service was held at which time a number of pledges and offerings were received for mission work.

Both congregations are well pleased with the procedure of uniting the two bodies. There will be German Sunday school classes and German services throughout the week for those who do not understand English. The German assembly has been without a pastor since the death of Rev. A. H. Wendt last winter.

Partial Report Of Church Campaign

Nearly \$800 Is Reported By Team Workers Of Second Baptist Church

On Sunday, March 31, a partial report of the team workers was made of the rally in the Second Baptist church. A total of \$759.78 has been realized to date. This amount was turned over to the trustees and will be applied on the church building debt. The final report will be given on the fourth Sunday in April.

In raising church funds the Sunday school has been an important factor, having given to the church \$222.88 this year and turned over to the building fund treasurer. The report of the team workers follows: Mrs. Elizabeth Thomas, \$110.50; Mrs. M. P. Nelson, \$85; Mrs. Mattie Williams, \$67.00; Mrs. Katherine Engle, \$49.30; Mrs. Agnes Alexander, \$38.45; Mrs. Noia Mann, \$29.00; Mrs. Clara Bryant, \$27.05; Mrs. Gertrude Rose, \$10; Mrs. Julia Woodson, \$5.00; Mrs. Lucille Miller's team, \$5.00; Sunday school \$222.88; general offering, \$122.80.

Rural Carriers Check Statistics

Complication Of Data Made By Postal Department Each Year; Takes 10 Days

Rural mail carriers working out of New Castle post office commenced their annual check of route statistics today. The check will continue for 10 days.

According to post office officials, every rural carrier is required to make a detailed check-up of their respective routes within the designated period. They must record the number of pieces of first-class mail carried, of second-class mail, third-class and fourth-class and the number of registered pieces they carry. Additional information is also secured.

The check is made by the department each year.

Large Crowds At Easter Services

Four Masses Conducted At St. Vitus Church On Sunday Morning

Easter Sunday services at the St. Vitus church found record breaking crowds attending the four special masses which were celebrated by Rev. Nicholas Delmita assisted by Rev. L. Desmond McNamany on Sunday.

The first mass was celebrated at 6:30 and it was attended by a large crowd like the second which was celebrated at 8. The masses which were attended by the biggest crowds were the third and fourth masses celebrated at 9:30 and 11 respectively.

Rev. DeMita and Rev. McNamany delivered short talks on the meaning of Easter, a short summary of the life and the resurrection of our Lord. Several thousand people received Holy Communion at the four special services. The altar and church were decorated very beautifully.

Boston U. Women Smarter Than Men

(International News Service)
BOSTON, April 1.—Women students at Boston University are brighter than the men, if a survey completed of the scholastic standing of the University's 109 fraternities and sororities is any indication. First and second places in the relative standing were made by Delta Beta Psi and Sigma Phi Delta, both local sororities, while the best the men could do was a poor third.

The next best runner-up position the Boston University men could garner was fourteenth. The men were found in their ability, however, that their best representatives were "non frat." They also pointed to the fact that the Medical frat men, all scholarship grade students, were not included in the survey.

But the co-eds refuse to listen, and are getting a big laugh out of the results.

THE FIFTH YEAR. No fiction feature in recent years has attracted such wide attention as The World's annual anthology of "Best Short Stories." These stories, orderly,

selected as being the sixteen best of the best stories published in the leading magazines during the year, will appear in the Magazine Section of The Sunday World, one complete story each week. Next Sunday the first of the Best Short Stories to appear in The World will be "Pick-Up" by Vina Delmar. Tell your news-dealer in advance that next Sunday you want The World.

ENGLISH PRINCES MAY BECOME GOVERNORS GENERAL

SMART ENSEMBLE SHOWN IN SOUTH

Pulling This Way and That Takes Off Fat

Since the appointment of the youngest son of King George of England, Prince George, to a \$1,000 a year position in the foreign office, rumors have been current that it is planned to send the sons of the royal family to the dominions and dependencies to act as governors general. Prince George is mentioned as the next governor general of Canada. Governors general are the personal representatives of the sovereign. Above, left to right, the Duke of York, Prince George and Prince Henry, who may be the next governors general to be appointed by their father, at right.

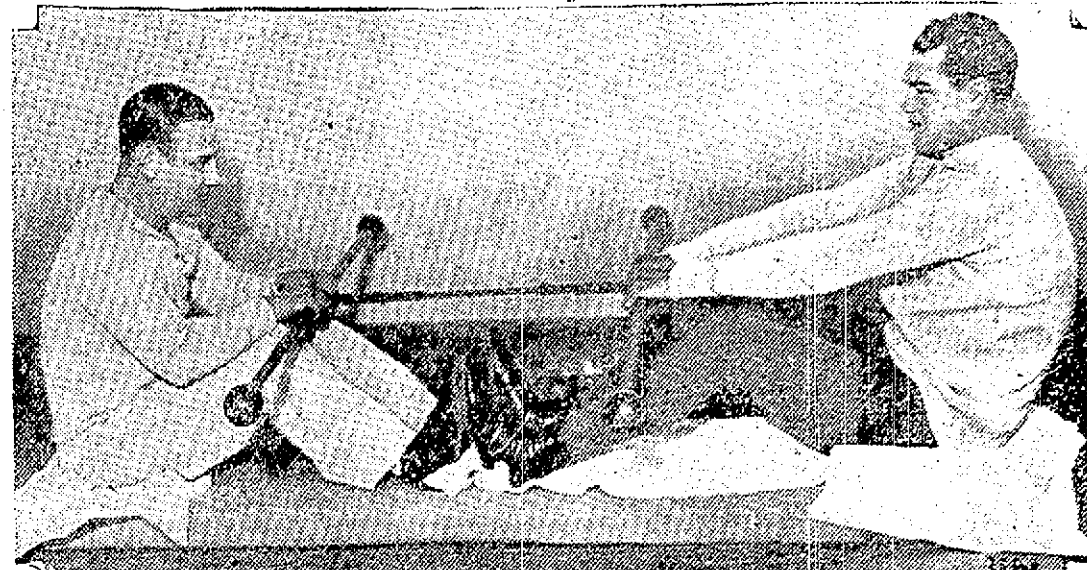

Ensembles are the rage this spring. This smart street ensemble was modeled at the tropical style show recently put on at Miami.

WILL JACK SIGN SELF FOR BOUT?

Will Promoter Jack Dempsey sign Fighter Jack Dempsey for a bout this summer under Dempsey promotion? Nobody knows, perhaps not even Jack himself. The cameraman here has pulled a trick showing Promoter Jack watching Fighter Jack sign for a bout.

Now that Jack Dempsey, right, is in the promoting business, he finds he must do some exercise every day, so what is more natural than that he turn to working out as he used to when preparing for a fight. The former heavyweight champ is seen here as he worked out with Artie McGovern at New York and for a little fellow Artie pulls pretty hard on his end.

New Wilmington Business Place To Be Improved; Other News Notes

(Special To The News)
NEW WILMINGTON, O., April 1.—More improvements in the new Wilmington are seen in the recent announcement of the W. W. Campbell Lumber Co. that it will revamp its main building. This process will consist in putting a light stucco finish on the walls of the big structure, as well as raising the roof and turning the whole plant into a two-story building. Show windows and a general remodeled exterior will also be added so that beauty as well as utility will be served when the work starts this summer. Alongside of the new white brick department store structure, which is already presenting an imposing appearance, the remodeled lumber company building will also add to the impressiveness of the college borough.

The New Wilmington Rotary Club will again hold its regular meeting tonight in the Methodist church social rooms after an absence of a week to make way for special services.

Kills His Wife, Sister-In-Law, Then Himself

STUBENVILLE, O., April 1.—Off-expressed threats against his wife and members of her family for her refusal to live with him culminated here Saturday night by Pete Galanos, 38, Donora, Pa., baker, when he shot and killed his wife, Theano, 31; her sister, Mrs. Soultan Synadinos, 29, and then turned the gun upon himself, dying a few minutes later in the Ohio Valley hospital. A shot fired at Despena, seven-year-old daughter of Mrs. Synadinos, went wild and the child escaped. According to eye-witnesses, Galanos was hiding in an alley between two buildings when his wife and sister-in-law approached with the little girl and an 18-month-old baby in his buggy. When the two women had passed the alley he leaped out and began firing, dropping his sister-in-law with the first shot right in front of her home at 320 North street, two blocks from the center of Stubenville's business district. He fired another shot at the daughter, who, screaming hysterically, was trying to push the baby carriage out of danger, and then shot three times at his wife, who dropped on the corner. The girl fled with the baby down the alley. They were rescued by neighbors, who took them into their home. Galanos then bent over the prone body of his wife and discharged another bullet into her heart. He then fired two shots into his head and fell beside the body of his wife.

See Increase In Freight Movement

Regional Boards Estimate 14 Per Cent Increase In Country

WASHINGTON, D. C., April 1.—Freight movement of the 29 principal commodities over the railroads of the Allegheny division during April, May and June will probably show an increase of 14 per cent over freight movement in the same division during the corresponding months of last year, the American Railway Association announced today following the receipt of estimations from the various shippers' regional advisory boards. During the second quarter of last year shipments of the 29 leading commodities over railroads of the Allegheny division totaled 1,047,238 carloads, while the shippers' advisory board of the region estimates that such shipments for the coming quarter of this year will amount to at least 1,193,781 carloads. The chief cause for this anticipated increase will be to heavier movement of coal and coke; chemicals and explosives; machinery and boilers and gravel, sand and stone, the advisory board believes. The railroads in the Allegheny division will show an increase in movement of the 29 leading commodities ranking second in the increases the country over, the mid-west railroads ranking first with an anticipated increase of 17.5 per cent.

To Probe Charge Against Morgan

Alleged Liquor Smuggling By Congressman Will Be Thoroughly Aired

(International News Service)
NEW YORK, April 1.—United States Attorney Charles H. Tuttle today was prepared to swing into his investigation of the report that Congressman William M. Morgan, elected as a dry in Ohio, had had four bottles of "whiskey" in his luggage when he arrived here last Monday. L. E. Crawford and James McCabe, customs inspectors who are reported to have said they saw the liquor in Morgan's bag, will probably be the first witnesses to tell their stories to the federal grand jury. The case has assumed such importance here that it is thought it may be the first to be laid before the investigating body today. It is fitting that the secretary of the interior should come from the interior and the secretary of war from Chicago. Correct this sentence: "I was so interested in the picture," said she, "I didn't notice what any of the characters wore."

Shown In Presbyterian
Church

Moving pictures of the Passion Play and an explanatory lecture by Dr. John A. Jordan of Pittsburgh, Pa., comprised the evening church service in the Mahoning Presbyterian church Sunday. The pictures were of the life of Christ. At various times during the program there were appropriate selections by the Ampton quartet, comprised of Messrs. Reese, Kisthart, Harris, and Francis. The church auditorium was filled to capacity and the program was pleasing and inspiring.

A beautiful Easter service was conducted in the morning. The spring communion service was observed. Rev. Schnebly preached on the subject, "The First Resurrection Morning." Special music was two anthems by the church choir.

For the morning service many Easter flowers had been brought by the ladies of the church and placed about the pulpit. Easter plants had also been purchased by the S. C. W. Bible class and were taken to the sick after the church service.

Fine Services On Sunday; Other
News Notes Of Seventh
Ward

At the request of a number of people the evangelistic services which have been conducted in the Mahoning M. E. church the past two weeks will continue. The special services were to have ended on Easter Sunday. No stated time was set for the special services to come to a close. The revivals will continue for the present with services each evening at 7:35. Rev. David Daye Steppy has been preaching at the special services and he will also preach this week at the meetings.

"The Easter Morning" and "What Are You Waiting For?" were the subjects for the evangelistic Easter services on Sunday. Special music at the morning service was an anthem by the choir and a duet by Mrs. Omar Nauk and Miss Grace Wallace. Six infants were baptized at this service. For the Easter services the pulpit was beautifully decorated with Easter flowers. At the evening service the special music was a solo by J. W. Miller and an anthem by the choir. Large attendances were present at both services.

Sunday was Joash day in the church. The Joash chest was open for contributions at both services. A nice sum was received for the church.

METHODIST CHURCH

Three hundred and fifteen were present at the Sabbath school in the Mahoning M. E. Sunday school. This was a larger number than usual.

This evening after the revival service the trustees will have their monthly meeting.

The McCoy Bible class will have their monthly meeting Thursday evening after the evangelistic service.

CHRISTIAN CHURCH

Thursday evening the Loyal Women's Bible class will have their monthly social meeting at the home of Mrs. Adda Robinson of Sunny Side.

Friday afternoon the Ladies' Missionary society will meet with Mrs. W. W. Sniff of Hiram Way. Mrs. C. H. Clark will be leader.

The Triangle Missionary club will meet Friday evening with Miss Mae Turk of Newell avenue. Miss Thelma Bumbaugh is leader.

PRESBYTERIAN CHURCH

Tuesday evening the M. E. G. auxiliary will meet at the home of Mrs. C. A. Patterson, Wilmington avenue.

Wednesday evening the mid-week prayer service at 7:30.

The Teachers Training class will meet following the prayer service.

The Opportunity Circle will have their monthly meeting Friday afternoon at 2:30 at the home of Mrs. M. L. Wallace of Highland avenue.

The Westminster guild will have their monthly meeting Friday evening.

EASTER PROGRAM

In the Madison Avenue Christian church Sunday morning there was a pleasing program presented by the

Easter Pageant At Italian M. E. Church

Young People Of The Congregation Take Part In Dramatization "All Hail"

The throngs which crowded the Italian Methodist church were highly appreciative of the unusually select program which the young people of the parish presented last night. More than a score of enthusiastic dramatists interpreted the pageant "All Hail". The scene was a garden with a profusion of plants, flowers and palms illumined by various lighting effects with the participants arrayed in pleasing costumes. The production was given by the members of the Sunday school senior department carefully coached by Miss Mabel Hutchison, assisted by the Misses Antoinette Barbanti and Ida Schnackie, and Noble DiLorenzo. The lessons of the Resurrection story were pictured with telling effects, while dialogues, monologues, solos and Easter hymns interspersed the pageant. Prolonged applause during the concluding recession evinced that the evening had been one of keen delight. The beginners and primary departments had also their place on the program and the little folks did well in their recitations and songs, and were presented by the superintendent of these departments, Miss Carrie Sandilippo, assisted by Miss Viola Fiala. The missionary cause was remembered through special world service envelopes.

Millionaire Builds House Within House

(International News Service)
LEBANON, Ind., April 1.—The "house within a house" was the unofficial name for the new home of Henry C. Ulen, millionaire contractor who has offices in New York but who lives here.

For the house proper has been enclosed in a large wooden shell in order that workmen could continue construction work during the severe winter months.

When the construction of the real house was well advanced and the weather became softer, the wooden shell was removed while news reel cameramen took motion pictures.

BLAME BOOTLEG FEUD IN KILLING AT YOUNGSTOWN

Police Say Victim Was Lured
By Promise Of Easter
Eggs

YOUNGSTOWN, O., April 1.—Lured to the intersection of Waverly and Division avenues by the promise of Easter eggs, Joseph McNamara, 22, was shot and killed here Sunday in what police say was a bootleg feud murder.

McNamara, police were told, received a telephone call before noon from someone who offered him some Easter eggs. When McNamara arrived at the appointed place, two men walked to his machine and fired three shots, one of which pierced his temple.

Several children in the neighborhood heard the shots and saw two men run from the scene. One of the men, the children said, was carrying a gun.

The intersection of Waverly and Division avenues has been the scene of five murders in the last four years.

Veterans Fail To Register Discharges

Would Mean Much In Case Of
The Loss Of Discharge
Papers By Veteran

On a recent check made by the Veterans of Foreign Wars through J. A. Bell and others, the surprising fact that less one half of the veter-

ans in the recent World War who are residents of Lawrence county have their discharge papers recorded at the Lawrence county register and recorder at the court house.

This is all the more surprising for the reason that the most valued paper of the war veteran is his discharge papers and their loss at any time, especially when not recorded in the local register and recorder's office would entail much time and possibly some slight expense in securing a copy from the war department.

If recorded here a copy could be secured almost instantly at a mini-

mum cost the amount of which is fixed and reasonable. It costs a veteran nothing at all to have his discharge recorded.

The real surprising feature of the entire affair is however the fact that the veterans most lax in having their discharge papers recorded are those who saw much service overseas.

Veterans of the World War are being urged to have this done as soon as possible for the protection of themselves and the members of their families.

Postpone Boxing Bouts At Bowl Tonight

Wolcast Down With Influenza

Midget Will Be Able To Box Willie Davies Here April 15

COMMISSIONER DOCTOR EXAMINES WOLCAST

By ED. FRITZ.

Midget Wolcast and Willie Davies will not box at Jolly bowl tonight as Wolcast has the flu and the long desired battle will be staged April 15, it was announced today by Promoter Jolly. The news that Wolcast had been stricken with flu was not received in New Castle until late Saturday afternoon and rather than attempt to run a substitute against Davies it was deemed advisable that the entire show be postponed two weeks.

The news that Wolcast was down with the flu was a severe blow to the bowl as the advance sale of reserve tickets totalled between \$1,500 and \$2,000 and it was stated that the reservations made would stand as made unless changed by the light fans. Persons who desire to surrender their tickets can do so, according to Promoter Jolly by returning the ticket to the agency where it was purchased. However it isn't likely that many of the pasteboards will be returned.

Boyle Approves Postponement

The first news of Wolcast's illness was received by the writer in a telegram from Johnny Keyes, manager of Wolcast. Immediately the writer communicated with Commissioner Harvey Boyle and said that the bowl desired to postpone the entire show instead of promoting a show with a substitute as the fans here desired to see Wolcast against Davies and no other boxer until that show had been conducted. It was also deemed best not to run another boxing bout until this show had been staged. Boyle approved the stand taken by the bowl.

The telegram sent from New York after Keyes had returned from Philadelphia where the Midget is undergoing treatment by Dr. Williams, his personal physician and also Dr. Baron, Pennsylvania Athletic commission doctor follows:

New York, March 30, 1929.

Ed. Fritz, New Castle, Pa.

Midget Wolcast contracted case of flu. Was examined by Doctor Baron, physician of Pennsylvania commission. Will not be able to box until fifteenth. Commission will send you report. Midget very sorry to disappoint you. It cannot be helped. Will call you midnight.

(Signed) Johnny Keyes.

As soon as Commissioner Boyle had been notified, press dispatches were sent to surrounding cities postponing the bout and at midnight Keyes telephoned the writer. He felt sorry that the bout had to be postponed but the promoter, Bill Jolly and the writer informed Keyes that under the circumstances the bout would be postponed.

Efforts are being made to keep the entire card intact as it appeared like one of the best arranged for the fans. Some fans wanted to see the fight without Wolcast but inasmuch as a raise in prices had been made and the attraction mainly was Wolcast vs. Davies it was deemed only fair to the fans to "hold everything".

Baseball Puzzlers

By CHARLEY BARRETT
Big League Scout Writing for Central Press and New Castle News

The hidden ball trick is a great favorite among the bush league clubs. They try it on an average of about once a game and ring in all kinds of fancy variations.

When only one umpire is working a game this play is really very difficult to call properly. Most of the time the umpire is fooled just as badly as the base runner, and he must get his eyes together in a hurry to save himself from an embarrassing position.

Down at Taylor, Tex., a play came up on a hidden ball trick that never was satisfactorily solved—although under big league conditions this mix-up probably could not have happened.

With a runner on third base play was suspended while a pinch hitter and a pinch runner entered the game. During the confusion the third baseman in some way managed to get the ball and concealed it by dropping it into his rear pocket.

When the play was resumed the pitcher fooled around the hill long enough for the runner to stray from third. Shouting to attract the umpire's attention, the third baseman leaped upon the surprised runner and both lost their footing to sprawl on the ground.

The third baseman had the runner block from the bag, but in the mix-up he could not extract the ball out of his pocket. He was a big fellow and managed to hold the runner off until finally he wrenched out the ball to make the out.

The offensive team claimed interference by the fielder on the ground that he did not have the ball in his hand. Infielder insisted ball was in his fingers inside the pocket all the time, and that as long as the ball was in his possession he had the right to block the bag. The umpire ruled the man safe and told the team to protest the game if it cared to.

Horton Smith Finds Self Popular Golfer

Horton Smith, Joplin Missouri Golfer Is Greatest Professional

New York Ready To Acclaim Youngster Who Has Gained Golf Prominence

By DAVIS J. WALSH
(International News Service Sports Editor)

NEW YORK, April 1.—Broadway, the corrupt, depraved Broadway that Hollywood keeps telling us about, the sinister street of missing men, no less, seems due to lose at least one decision in a career of absolute conquest over that thing they call the soul of man. They'll be setting those words to hearts and flowers one of these days, but I venture to say that turkey in the straw will do well enough right now, because Horton Smith, the nine o'clock boy, is coming to town.

The nine o'clock boy, they tell me, neither smokes nor drinks nor stands on the corner leering at honest gals as they go by on their way to work in the night clubs and, if one expresses a desire to gamble, I have no doubt that he brings one's own lambs to the frolic. Indeed, yes, the script calls for everything that is big and fine and noble and, if you can reconcile that character with the fact that his name today is the toast of every locker room in the land, then you have a composite photograph of the most unusual personality that has come to the links in years.

Is Great Golfer

A great golfer, perhaps the greatest professional the world now knows; yet apparently he is simplicity itself. And he's never seen Broadway.

Quite a hurdle for a 20-year-old whose name, three months ago, probably hadn't penetrated even to the outskirts of the old home town of Joplin, Mo. Three months ago he would have had to die to get in the newspapers. Today he couldn't be kept out, even by a press agent.

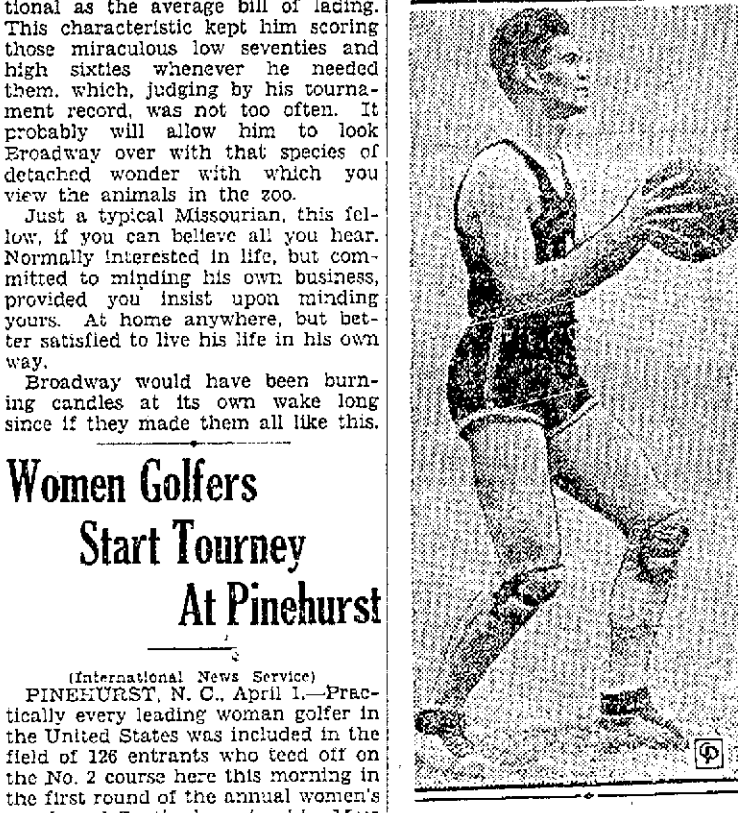

His is the sort of overnight notoriety that usually goes to one's head, provided one hasn't any to speak of. Sometimes it gets even the guys who are far from being champs in their own right. Babe Ruth never was any man's sap, but he couldn't take the jump from poor boy to popularity. In fact, it is only in recent years that Ruth has been able to play the thing like the normally intelligent man he is.

Broadway is no place for an emotional type and I'm sure that because he is supposed to be about as emotional as the average bill of lading. This characteristic kept him scoring those miraculous low seventies and high sixties whenever he needed them, which, judging by his tournament record, was not too often. It probably will allow him to look Broadway over with that species of detached wonder with which you view the animals in the zoo.

Just a typical Missourian, this fellow, if you can believe all you hear. Normally interested in life, but committed to minding his own business, provided you insist upon minding yours. At home anywhere, but better satisfied to live his life in his own way.

Broadway would have been burning candles at its own wake long since if they made them all like this.

Coast-To-Coast Runners Headed For Trenton, N. J.

Elizabeth, New Jersey Is First Control Reached In Derby Grind

ED GARDNER IS LEADER FIRST DAY

(International News Service)

ELIZABETH, N. J., April 1.—A picturesque band of 78 marathon runners, sporting red, yellow and black jerseys and accompanied by the officials and ballyhoo squad in six bright red automobiles, headed for Trenton, N. J., today on the second lap of C. C. Pyle's second annual trans-continental foot race.

At the end of the rainbow, in Los Angeles, a pot of gold amounting to \$50,000 awaits the leaders who survive the grind. A first prize of \$25,000 will go to the runner who leads the pack across mountain and desert to the goal.

Veterans of last year's race were in the lead as today's jaunt started. Ed Gardner of Seattle, who finished eighth last year, won the first lap from New York City to Elizabeth. He covered the 25 1-10 miles in 1:58:30, averaging more than 12 miles an hour. Sam Richman of New York, another veteran, was second and was followed by the Cool brothers of Belgium.

To Finish June 18.

After passing through Philadelphia, the runners will cross Maryland, Ohio, Indiana, Illinois, Missouri, Oklahoma, Texas, New Mexico, Arizona and Los Angeles. They will cover from 25 to 72 miles a day and are expected to finish around June 18.

New York gave the derby a big send-off yesterday. Fifty thousand persons jammed Columbus Circle and it was estimated that 500,000 others lined the route from New York to Elizabeth.

Other runners who started included Ken Mullan, Philadelphia; John Sulo, Passaic, N. J.; R. V. Ellsworth, Monaca, Pa.; Paul Amos, Pittsburgh; William Black, Cumberland, Md.; Everett Moor, Marchand, Pa.; Morris Spearstein, Wheeling, W. Va.; and Richard Block, Philadelphia.

Lomski Won Bout Handler Claims

(International News Service)

NEW YORK, April 1.—Bill Duffy, one of Leo Lomski's handlers, declares that the Aberdeen, Wash., light-heavyweight should have another chance to qualify for a bout with Champion Tommy Loughran on the ground that Lomski was entitled to a technical knockout over Tuffy Griffith in their bout at Chicago last Thursday. Lomski's right glove burst in the fifth round after he had opened a cut over Griffith's right eye.

During the interval Griffith's cut was treated by his handlers. Duffy asserts he should have been compelled to circle about the ring and that Lomski really won the bout on a technicality.

PLAINGROVE

Pupils of the Plaingrove school were grieved at the sudden death of one of their members and friends, Helen Houston. She was a member of the class that will be graduated in June. The pupils and class members of Plaingrove extend their deepest sympathies to the parents and brother and sister. Helen will be missed. Her classmate and her voice is silent. Her companionship is lost but we can all remember her forever.

Miss Agnes Moore, who underwent an operation in the Bashline-Rossman hospital some time ago, has improved considerably. It is expected that she can leave the hospital on Thursday or Friday of next week.

The Plaingrove Independent basketball team defeated the Harlansburg Independents recently by a score of 33-22. Plaingrove held the lead throughout the game, and played a defensive game almost the entire time. The lineup:

He's Standing Almost Pat

Connie Mack

(THE PHILADELPHIA ATHLETICS WILL ENTER THIS YEAR'S RACE WITH PRACTICALLY THE SAME TEAM THEY HAD LAST SEASON WHEN THEY FINISHED SECOND IN THE AMERICAN LEAGUE.)

"Ossie" ORWOLL

By QUIN HALL

Connie Mack is busy hoping that the old addages are still hitting on all six and that a bad start still calls for a bang-up finish. The O' Timer from Philadelphia is anxious to rope another pennant with the Athletics before he steps down as their pilot, and the 1929 crop of Athletics most assuredly didn't get away to any sparkling start when they dropped their first two exhibition games to the St. Louis Cardinals in the Floridian Palm Tree League!

Your roving reporter saw the A's drop their third straight exhibition game when they hooked up with the Cincinnati Reds before a well-crowded grandstand at Miami and, while they were the big splash in the American League last year, they didn't look competent to repeat as a sensation in this year's career.

Naturally, the Mackmen were just getting under way and we'll reserve a real prediction—if any—until we have seen them in action later on in the training season. But the Athletics didn't seem to have the old pepper and that of pep should be noticeable in the spring if a team is going to raise cob in the regular season's campaign.

Running across Eddie Collins in the hotel lobby before the game, we did our inquiring concerning the condition of the A's.

"We dropped our first two exhibition games," responded Eddie, "but we still have a long way to go."

Whatever happens, Connie Mack is likely to stand almost pat on his last year's line-up. He wasn't active in the baseball marts over the winter months and, while he is letting a few rookie twirlers and outfielders work out with the club at Fort Myers, practically the same team which represented Philadelphia last year is on deck when the season opens later in the month.

Mack has a flock of real ball players, starting with Lefty Grove and finishing off with Al Simmons, the heavy-hitting gardener. Next to John McGraw of the New York Giants, probably no manager has so many outstanding ball players on his roster as Connie Mack and to prove that he is fairly well satisfied with the material on hand, he's not going to add many new names to the payroll.

If Mack needs reinforcement in the outer garden he has Homer Summa, the former University of Missouri star, who played six seasons with Cleveland and was sold during the winter to Philadelphia. His six-year batting average with the Indians was better than .300. Mack also is looking over Nick Borelli, the Muhlenberg College star, and Redman Hume, the crack outfielder from the Southern Methodist University.

Although he has two of the best southpaws in the business, Mack had three other pitchers in camp. They are Bolan of Baltimore; Wingard of Milwaukee and Yerkes of Portland. The A's apparently think they can left-hand their way to the pennant!

In early exhibitions Mack was using Ossie Orwoll, the ex-pitcher, on the initial corner, with Jimmy Fox, the ex-catcher, at the hot corner. These boys are both fast workers and good hitters, and they are likely to be seen at those spots when the year opens. Back of the platter he has one of the best backstops in the game in Mickey Cochrane. Jimmy Dykes is

Pirates To Open Home Season With Cubs On April 24

Manager Bush And His Hustling Pirates Prepare To Battle For Flag

CUBS WILL HAVE POWERFUL TEAM

Get out your date book and the old blue pencil and put a big ring around Wednesday, April 24, for on that day all sport loving fans of Western Pennsylvania will be carded for a very pressing engagement at Forbes field, Pittsburgh, when Donie Bush's California trained Pirates and Joe McCarthy's Hornsbyized Chicago Cubs open the National league baseball season in Pittsburgh.

No Pittsburgh team ever took the field with more promise than the Pirates of 1929, for it is the consensus of opinion that, with the addition of Jess Petty, Earl Shnelly, Steve Swetonic, Lawrence French and Jimmy Stroner to last season's permanent roster, the Buccaneers are stronger than ever and have become at once a most likely contender for the 1929 bunting.

Quite a few Pittsburghers, vacationing in California, glimpsed the Buccos in training and in exhibition games on the coast, and have sent back home some very optimistic predictions for the team.

Some of the most encouraging phases of the spring training work this year has been the showing of George Grantham, Adam Comorosky and Fred Brickett in the outfield. All three of these boys have surprised the Bucco bosses both in their fielding and in their stick work. Comorosky especially seems to have found himself, and should be a tower of strength this season.

The Pirates have an opponent par excellence in the Chicago Cubs for the opening day attraction for the Chicago aggregation, since the acquisition of Rogers Hornsby has been touted far and wide as the 1929 pennant winner. Hornsby, however, is not a whole ball club by far and, while the Cubs are strengthened at second base, they are no stronger elsewhere than they were last season, and several other clubs, the Pirates included, are plenty strong enough to dispute with them the question of supremacy. The big argument, as far as the Buccos are concerned, will start on opening day and should prove a sizzler from the start.

FARMER HURT SAVING FAMILY FROM BLAZE

BEAVER FALLS, Pa., April 1.—Eugene Zahapatin, 35, White township farmer was cut and burned crashing through the window of his home to save his wife and children from fire. When Zahapatin awoke he discovered escape shut off by the flames. The home was destroyed.

Davies-Wolcast Bout Postponed Until April 15

Midget Wolcast, state flyweight champion, scheduled to box Willie Davies, main challenger tonight at Jolly bowl, is ill with flu and cannot box tonight. The Davies-Wolcast battle has been postponed until April 15.

The bowl management could have secured a substitute to box Davies but this was deemed inadvisable as the fans want to see Davies and Wolcast. Efforts are being made to keep all of the boys billed for tonight on the April 15 card.

Persons who wish to surrender reservations can do so at the agency where the reservation or reservations were secured. Few tickets will be surrendered, according to the advices received.

Persons who had ordered reservations for tonight's bout, now postponed until April 15, will get the reservations ordered April 15. Persons who had ordered reservations and do not want them April 15 should notify the agency where it was ordered reserved as other fans are clamoring for reserve seats.

Greatest Day For Trinity Church

Largest Attendance Of Any Easter Day In Churches History

ELLWOOD CITY, April 1.—Over 1,000 people attended the three services Sunday at the Trinity Lutheran church. It was probably the biggest day in the history of the local church, with over a thousand dollars added to the church treasury. The day opened with a beautiful early Easter service at 7 a. m. The church was comfortably filled, and at this service the pastor, Rev. L. J. Baker, delivered his only sermon of the day, "The Lord is Risen Indeed." Mrs. Henry Schenck beautifully rendered the solo "I Am the Resurrection" at this service. Special organ music was played by Mrs. George Atkins, organist.

The 10:45 a. m. service was the Easter communion service, at which time the confirmation class of 26 received their first communion. Rev. J. H. Graff, professor of German at Thiel college, assisted Rev. Baker in these two early day services.

At 2:30 p. m. Rev. Baker conducted a service at the Mt. Hope country church, a preaching and communion service for those country people who could not come into the city for their Easter day services.

A beautiful climax to the church's day's activities was the cantata "Christ the Victor," which was rendered wonderfully by the augmented church choir of 40 voices. The solo work of the cantata was handled perfectly by P. W. Blocher, bass; Robert W. Taylor, tenor; Mrs. Henry Schenck, soprano, and Miss Mary Blocher, contralto, with Mrs. George Atkins at the organ.

Trinity Lutheran church has been advancing rapidly the past year, 57 new members were added to the rolls of membership with 28 new members during this Easter season.

Vandeville Features Stag Party Saturday

ELLWOOD CITY, April 1.—Twenty-seven acts of vaudeville, including humorous selections, songs, dancing and music, were presented at a party held in the Shelby Social Club auditorium Saturday evening.

The affair was a stag for the club members and the employees of the National Tube Company and was largely attended.

ELLWOOD CITY, April 1.—Admitted Sunday: A. Kirk Thompson, line avenue. Admitted Monday: William Morrison. Discharged Saturday: Miss Viola May Houk, New Castle R. D.

Trained in America

Countess Olga Medalago-Albani

Just how important the spirit of America and American training for singers is becoming in the world of music, may be suggested by the performance of Countess Olga Medalago-Albani, who is the guest artist in a nationally broadcast radio program. The countess is the daughter of one of the oldest families of Spain, but has lived in America since she was three years old, was educated in a Long Island convent and in Horace Mann school, New York, and received practically all her musical training in the United States.

Tuesday Election Day In New Borough

Ellport Citizens Will Go To The Polls To Name Local Officers Tomorrow

ELLWOOD CITY, April 1.—Tuesday is election day in the newly created borough of Ellport, adjoining Ellwood City. It will be the first election in the municipality, and members of council, a burgess and other officers will be selected.

Two tickets are in the field, and the election campaign has created quite a lot of interest, indicating that a big vote will be cast tomorrow.

While there are estimated about 1,000 residents in the new borough, the size of the vote to be cast is largely a matter of conjecture, although of course it will not be near the figure of the total population of the new borough.

Woman's Club Monthly Meeting

ELLWOOD CITY, April 1.—Tuesday afternoon at 2:30 the local Women's club will hold its monthly meeting at the Elks club.

"Gardening" is the subject for discussion with Mrs. George Fisher in charge of the program. Several talks and a round table discussion will be given on the subject. Mrs. T. A. Wilson and Mrs. Francis Tomasson will give reports on the recent Pittsburgh convention. Special music and entertainment have also been planned.

Annual Meeting Of Congregation

ELLWOOD CITY, April 1.—The annual congregational meeting of the members of the Slippery Rock Presbyterian church was held in the church Saturday afternoon. The following officers were elected to serve during the coming year: William Wellhausen, secretary; Claire Friday, treasurer; Charles Wilson, auditor; Miss Louise Steele and Mrs. Reed Wellhausen, pianists; John Menzer, James Wilson, John H. Houk, Jess Houk, Joseph Menzer and Merle McCann, ushers; Roy Meehan, John M. Houk, Elders; Earl Friday and George Wilson, trustees.

Ellwood Driver Forfeits License

One Of 213 Who Lose Licenses In Week By Action Of State Department

(International News Service)

HARRISBURG, April 1.—Another increase was recorded when the Department of Highways today announced that 213 persons had lost their drivers' licenses for violation of provisions of the motor vehicle code, during the week ending March 28.

Charges of intoxication again led the list as the main cause for revocation. 56 persons losing their licenses on this charge alone. Fatal accidents placed second with 31 licenses revoked on this charge, while 29 persons lost their licenses on charges of larceny.

The licenses of 16 persons were revoked for looting their cars. 15 for impersonating, eight for misuse of a motor vehicle, six for failure to file an accident report. Seven licenses were revoked on charges of transporting liquor while only two revocations resulted from reckless driving.

Among those who lost their licenses on charges of intoxication were: Clarence Cumens and Edward G. Walsore, both of Lancaster; Andrew Weyant, Lewisburg; Robert Phillips, Monessen; James Mullen, Honesdale; Harry Frame, Washington; Joseph P. Novak, Greensburg; Russell C. Glasner, Ellwood City; Thomas C. Moore, Norristown, and Robert J. Haley, Waynesboro.

Revocations on charges of larceny included George Irvin, Wilkes-Barre and John Stambaugh, Hanover.

A. L. Conover of Erie, lost his license on a charge of transporting liquor and that of Anton W. Speth, Allen town, was revoked on a charge of intoxication and failure to stop following an accident.

The license of James Guarnieri of Bristol was revoked on a charge of impersonation. John McGill, Mount Carmel, lost his license for reckless driving.

The licenses of Harry Guarnieri of Bristol, was revoked when he was charged with having loaned the car as was that of J. W. McCoy, Chambersburg, on a similar charge.

George Wordon of Chester, lost his license on a charge of reckless driving and assault and battery.

Two persons lost their drivers cards on the grounds that they were physically incapacitated to operate a car safely while a similar number were revoked because of inability of the owners to interpret traffic signals.

EARLY MORNING SERVICES

ELLWOOD CITY, April 1.—Sunday morning's service at the First Methodist church, under the young people's division of the local churches, brought to a conclusion a week of the most successful as well as inspirational services ever held here.

The Rev. Robert Little, pastor of the church, presented the sermon and took for his subject "The Resurrection of the Dead."

Miss Fern Cloak led the devotionals. A solo, "Open the Gates of the Temple," was given by Miss Marie Christley and Miss Margaret Christley. The choir rendered several solos. About 150 attended the service.

PLANS COMPLETE

ELLWOOD CITY, April 1.—All is in readiness for the annual Elks charity ball, to be held in the Slippery Rock clubhouse Saturday evening.

The ball has been beautifully decorated. Five hundred and bridge has been provided for those not caring to dance, with lovely awards for the winners.

The committees in charge have made every effort to have this frolic the most elaborate and successful ever held.

Cars Collide At Court St. Corner

Slippery Rock Car In Collision On East Washington Street Saturday

According to reports made to the police Saturday by Merle R. Young of Slippery Rock at present staying in Pittsburgh and A. A. Flynn of 110 South Scott street, their machines came together at the intersection of East Washington and Court streets, both machines sustaining some damage.

According to Mr. Young he was enroute east on East Washington street at Court street and saw no machines as he was driving along at this point, when suddenly the Flynn car came out of Court street enroute across Washington street to West County Line street and the machines came together. Mr. Flynn reported that he had stopped before starting across Washington street and after looking and seeing no cars he started over. He then saw the Young car approaching and stopped in the center of the street to allow it to pass to his right but the Young car hit and damaged his machine.

Thousand Iowans To Tour Colorado

(International News Service)

DENVER, April 1.—A group of Iowans, 1,000 strong, will visit Colorado in July, according to an announcement of reservations by the Chicago, Burlington & Quincy Railroad offices here. They will represent the Kiwanis club of Shenandoah.

For the past seven years, the Kiwanis club of Shenandoah has sponsored annual tours for groups of tall men. Last summer, a party of 1,800 persons went to Europe. This year, they will visit Colorado for the first time.

SORDS POINTS

Creates Quite A Cloud Around Second Base

By JACK SORDS
Sports Cartoonist-Writer for Central Press and New Castle News

One of the most frequently discussed young players in the major leagues this spring is Carl Lind, the tall second baseman of the Cleveland Indians. Carl proved a sensation around the keystone sack last year, his first in the big time, and was generally referred to as the "find" of the season.

It was through an accident that Lind was given an opportunity to show his stuff. He failed to show any exceptional ability at the spring training camp, but when Fonseca was injured at the beginning of the season, Manager Peckinpaugh was forced to send in the rookie to fill the gap.

Lind fielded his position like a veteran and played his part in setting a new league record for double plays.

In the majority of cases first year stars fade during their second campaign. But from the reports out of the South the change in Lind's case is for the better. He showed up weighing about 15 pounds more than he did in 1928, and while this added meat has not slowed him any on defense, it enables him to put more steam behind his drives. At his present form he is expected to hit better than .300 for 1929.

Woman's Party Buys Oldest Capital Home

WASHINGTON, April 1.—The oldest house in Washington has been purchased by the National Woman's Party to take the place of the "old brick capital" as its headquarters, the latter structure having been purchased by the Government as the site for the new Supreme Court Building.

The new headquarters building was purchased from Senator Porter H. Dale (R., Va.), and is at the corner of Second and B streets, northeast.

The property was built by Lord Baltimore for his daughter in 1772, twelve years before Washington was selected as the site for the National capital.

The contract of sale for the new headquarters is signed on behalf of the Woman's party by Mrs. O. H. P. Belmont, national President of the organization, who presented the old Capitol to the party.

Lets Guard Gates Down On Automobile

Boy Robbers Ordered To Quit Dime Novels

(International News Service)

KANSAS CITY, April 1.—When two grade school boys were charged with robbery, Judge Porterfield forbade them to read any more dime novels and ordered them to read Sunday school lessons daily.

Hoppe Favored In Billiard Match

(International News Service)

NEW YORK, April 1.—The veteran Willie Hoppe is a 6 to 5 favorite to defeat Allen Hall in their 600 point three-cushion billiard match which begins here this afternoon. The winner may meet Johnny Layton world's champion, in a match later this month.

Another match will start today when Welker Cochran, of Hollywood, Cal., meets Felix Grange, French champion, in the first of twelve blocks of 18.2 ballline.

Christians Will Meet On Tuesday

The Central Christian baseball team will hold an important meeting Tuesday evening at 8 o'clock, at the church. All players are asked to be present, and any others desiring to tryout with the Christians this season. Plans are under way for a fast team this year, and the Christians will make a spirited bid for championship honors in the New Castle Church League.

Advance Methods For Curtailing Wild Speculation

Two Remedies Advanced By
Statesman To End Specu-
lative Gambling

SENATORS ENTER MARKET BATTLE

Federal Reserve Board Has
New Plan; To Increase
Re-Discount Rate

By WILLIAM K. HUTCHINSON
International News Service Staff
Correspondent

WASHINGTON, April 1.—
The statesmen on Capitol Hill
were matching their brains
against Wall Street today to
devise a method of curbing
the orgy of speculative gam-
bling in Wall Street.

Two remedies for the stock
gambling situation, which has drawn
more than \$2,000,000,000 in cash from
the legitimate industries of the na-
tion, were under consideration.

First, Senator King (D) of Utah,
said he would sponsor a bill outlawing
from interstate commerce all ne-
gotiations in "marginal" buying of
securities.

Second, Senator Norris (R) of Ne-
braska, was studying a plan for levy-
ing a federal tax upon speculative
loans.

Seek To Strengthen

Senator Carter Glass (D) of Vir-
ginia, a former secretary of the treas-
ury, meanwhile was seeking to
strengthen the Federal Reserve Act.
Glass has maintained that the law
itself is sufficient to control and curb
speculation and that the fault lay
in the Federal Reserve Board's failure
to enforce the law. He may sponsor
an amendment to make the board
act.

The fly in the ointment, so far as
congressional action is concerned, has
been the impossibility of determining
in advance just what effect any cor-
rective legislation would have on the
nation's finances, it likewise has been
impossible to learn accurately whether,
if speculative gambling were curb-
ed, there would be an improvement in
the agricultural credit situation,
which has been the goal of those
attacking the speculative markets.

The bill, which King will sponsor,
has been introduced several times in
the past but congress never has acted
upon it. It would forbid the use of
the mails, the transmission of any
messages and the transfer of any
money across the state lines for mar-
ginal transactions in securities.

Would Levy Tax

The plan Norris is studying would
levy a tax on all interest payments
made to any bank above a certain per
cent—say 6 per cent, and prevent a
higher rate on "call money," used in
speculative gambling.

The Federal Reserve Board mean-
while has contemplated just the ex-
act opposite action. It has considered
an increase in its discount rate,
the rate of interest charged when it
rediscounts or takes over loans made
brokers by member banks, which in
turn may have acquired possession
of the brokers' notes from national
banks. An increase in the discount
rate however would affect all kinds
of loans and while curbing brokers'
loans would likewise work hardship
upon agriculture and legitimate in-
dustry.

The fact though that Norris and
the Federal Reserve Board should
consider plans so diametrically op-
posed—as far apart as the north and
south poles—only serves to empha-
size the uncertainty of legislative re-
lief.

A. & P. Stores Hit By Bad Check Man

Saturday and today four different
A. & P. stores of the city reported
having cashed checks, which have
proven no good. They are evidently
the work of the same person, as they
are all for the same amount, \$28.50,
and signed by the same name,
"Charles Lutton."

Two of the checks were cashed at
433 West Grant street and 353 East
Washington street on Saturday. De-
tective C. G. Logan was detailed on
the investigation and found that the
passer of the checks purchased about
\$4 worth of groceries in each instance.
Then gave the check in payment, re-
ceiving the difference in cash.

This morning the stores at North
Mill street and on East Washington
street next door to the First National
Bank of Lawrence County reported
the same kind of checks as being in
their possession.

The man perpetrating the passing
of the checks is described as being
about 25 to 30 years of age wearing
a working cap and overalls and hav-
ing a small mustache.

Report Two Bills

From Committee In Effect Today

During the regular session of
council today the solons reported
from committee an ordinance provid-
ing for the paving of Pearson street
between the end of the present paving
and Taylor street and also providing
for the paving of Reynolds street be-
tween South Mill street and Pollock
avenue.

HER CHOICE.

Boring Pianist—Well, I've played
for your daddy and mummy, and now
I think I must do something for you.
Wh—what do you like?
Little Betty—A piece of chocolate,
please.

New Price List In Effect Today

Changes Made In Prices Of
Stamped Envelopes, Both
Printed And Un-
Printed

The new price list of printed and
unprinted stamped envelopes, and
newspaper wrappers, issued by the
post office department during the
past week, went into effect today.
The revised list of prices contains
several important changes

Inspector Tests Weights, Measures

A chart of the new prices now has
been posted in the lobby of the local
post office. Those wishing to inquire
further into the changes can secure
necessary information there.

Inspector W. A. Brown reported to
council which met at the city
building today that during March he
had found one computing scale that
he condemned and also condemned
six packages.

The average retail price of auto-
mobiles is \$887.

Verdict Returned By Order Of Court

When common pleas court convened
this morning the first case taken up
before Judge Hildebrand in court
room No. 1, was that of the First Na-
tional Bank of Ellwood City adminis-
trator of Paul Ozeo against John
Erdoes. After the jury had been
sworn Judge Hildebrand announced
that the parties had reached an
agreement, and directed the jury to
bring in a verdict for \$200, the
amount agreed upon.

In court room No. 2, before Judge
Chambers, the case of Audio Brothers

Plan To Improve City Departments

Council today instructed the city
clerk to ask for bids for the paper-
ing of the police, engineering and
health departments which are in
need of "cleaning up." The walls are
cracked, paper torn off and when
Engineer Miller presented plans for
the improvement council acted unani-
mously.

Consistory Bugle Corps To Practice

The weekly practice of the Con-
sistory Legion of Honor Bugle Corps
will be held Tuesday evening at
7:30 at the Cathedral.

The services of Prof. Charles G.
Lindner have been extended by the
Legion of Honor, the corps having
made very satisfactory progress un-
der his direction.

All members are asked to attend
Tuesday's rehearsal. Uniforms, for
which the men were measured last
week, will probably be fitted at the
meeting tomorrow evening.

Henry Ford's Double Is Dead At Age Of 58

LONDON, April 1.—Henry Ford's
double is dead.

He was the founder of the first
London news photograph agency and
Sierra Leone dispatches recorded his
death at the age of 58.

By name Walter J. Edwards, he
bore a remarkable facial resemblance
to the famous American automobile
magnate. A great traveler, raconteur
and story teller he was as widely
known and loved in the United States
and Canada as in Britain
